Australian Financial Review reported in its 2019 MBA Rankings that Australian MBA graduates see an average salary increase of 28 per cent to reach \$157,000 within three years of completing their course.

Question 14: Is STARS paid?

Answer: All students enrolled into the STARS program will receive a \$900 Stipend to assist with the cost of their study or professional placement.

Question 14a: I'm curious about the funding of STARS, is the program paid?

Answer: All students enrolled into the STARS program will receive a \$900 Stipend to assist with the cost of their study or professional placement.

Question 14b: Does participation in STARS come with a cost or is it a paid program?

Answer: All students enrolled into the STARS program will receive a \$900 Stipend to assist with the cost of their study or professional placement.

Question 14c: I'm wondering if STARS is a paid program or if there are any fees associated with it?

Answer: All students enrolled into the STARS program will receive a \$900 Stipend to assist with the cost of their study or professional placement.

Question 14d: Can you provide information on the payment structure of STARS, is it a paid program or are there any costs involved?

Answer: All students enrolled into the STARS program will receive a \$900 Stipend to assist with the cost of their study or professional placement.

Question 15: Are STARS placements extra placements or part of my course?

Answer: The STARS professional placements are part of the required professional placements in your course. They are not extra placements.

Question 15a: I'm trying to understand the nature of STARS placements, are they additional to my course placements or part of the course requirements?

Answer: The STARS professional placements are part of the required professional placements in your course. They are not extra placements.

Question 15b: Do STARS placements count towards the course requirements, or are they considered separate from the regular course placements? Answer: The STARS professional placements are part of the required professional placements in your course. They are not extra placements.

Question 15c: Are STARS placements included as part of the course requirements, or are they optional extra placements? Answer: The STARS professional placements are part of the required professional placements in your course. They are not extra placements.

Question 15d: I'm curious about the relationship between STARS placements and the regular course placements - are they integrated or separate components?

Answer: The STARS professional placements are part of the required professional placements in your course. They are not extra placements.

Question 16: Can I complete my two STARS placements in the school that I am doing Permission To Teach (PTT) work? The school fits the low-socioeconomic criteria and have said they would be happy for me to do my STARS placements there.

Answer: You will be able to complete your final two placements through the STARS program at your school. You will also be able to continue with PTT across the year. For example, it may be that you have a split, perhaps three days in STARS and two days in PTT. The STARS part would need to be supervised and would also allow you to do the GTPA (final placement assessment). After you have submitted your application for the STARS program, please reach out to Jade on this email address: edpartnerships@swinburneonline.com and she will be able to assist you in negotiating this with your school.

Question 16a: I'm considering doing my STARS placements at the same school where I'm currently doing Permission To Teach work - is that a possibility?

Answer: You will be able to complete your final two placements through the STARS program at your school. You will also be able to continue with PTT across the year. For example, it may be that you have a split, perhaps three days in STARS and two days in PTT. The STARS part would need to be supervised and would also allow you to do the GTPA (final placement assessment). After you have submitted your application for the STARS program, please reach out to Jade on this email address: edpartnerships@swinburneonline.com and she will be able to assist you in negotiating this with your school.

Question 16b: Can I fulfill my two STARS placements at the same school where I'm currently working for my Permission To Teach certification, given that the school meets the low-socioeconomic criteria?

Answer: You will be able to complete your final two placements through the STARS program at your school. You will also be able to continue with PTT across the year. For example, it may be that you have a split, perhaps three days in STARS and two days in PTT. The STARS part would need to be supervised and would also allow you to do the GTPA (final placement assessment). After you have submitted your application for the STARS program, please reach out to Jade on this email address: edpartnerships@swinburneonline.com and she will be able to assist you in negotiating this with your school.

Question 16c: I'm interested in completing my two STARS placements at the same school where I'm doing my Permission To Teach work - is this an option that's available to me?

Answer: You will be able to complete your final two placements through the STARS program at your school. You will also be able to continue with PTT across the year. For example, it may be that you have a split, perhaps three days in STARS and two days in PTT. The STARS part would need to be supervised and would also allow you to do the GTPA (final placement assessment). After you have submitted your application for the STARS program, please reach out to Jade on this email address: edpartnerships@swinburneonline.com and she will be able to assist you in negotiating this with your school.

Question 16d: Would it be feasible to conduct my two STARS placements at the same school where I'm currently engaged in Permission To Teach work, given that the school satisfies the low-socioeconomic criteria?

Answer: You will be able to complete your final two placements through the STARS program at your school. You will also be able to continue with PTT across the year. For example, it may be that you have a split, perhaps three days in STARS and two days in PTT. The STARS part would need to be supervised and would also allow you to do the GTPA (final placement assessment). After you have submitted your application for the STARS program, please reach out to Jade on this email address: edpartnerships@swinburneonline.com and she will be able to assist you in negotiating this with your school.

Question 17: When Swinburne matches the student to the placement school, what is the criteria for travel expectations, will Swinburne match me to somewhere within a reasonable distance from my home or could it be anywhere in regional/rural Victoria?

Answer: Swinburne will try to match you to a school as close as possible to your usual place of residence. The maximum travel time from your home to the school will be 90 minutes however, every endeavour will be made to try to ensure it is less than this.

Question 17a: I'm wondering about the travel expectations when Swinburne matches students to placement schools - will I be placed somewhere within a reasonable distance from my home, or could it potentially be anywhere in regional/rural Victoria?

Answer: Swinburne will try to match you to a school as close as possible to your usual place of residence. The maximum travel time from your home to the school will be 90 minutes however, every endeavour will be made to try to ensure it is less than this.

Question 17b: When Swinburne matches students to placement schools, what criteria do they use to determine travel expectations? Will I be matched to a school close to my home, or could I be placed in a more remote location?

Answer: Swinburne will try to match you to a school as close as possible to your usual place of residence. The maximum travel time from your home to the school will be 90 minutes however, every endeavour will be made to try to ensure it is less than this.

Question 17c: I'm curious about how Swinburne decides where to place students for their school placements - are there any travel requirements or restrictions, or could I potentially be placed anywhere in regional/rural Victoria?

Answer: Swinburne will try to match you to a school as close as possible to your usual place of residence. The maximum travel time from your home to the school will be 90 minutes however, every endeavour will be made to try to ensure it is less than this.

Question 17d: What guidelines does Swinburne use when matching students to placement schools in terms of travel expectations? Can I expect to be placed somewhere near my home, or could I be placed in a more remote location?

Answer: Swinburne will try to match you to a school as close as possible to your usual place of residence. The maximum travel time from your home to the school will be 90 minutes however, every endeavour will be made to try to ensure it is less than this.

Question 18: When do the STARS Canvas modules open? Would I be able to have access to them at the start of the teaching period as I'd like to work on the STARS module before placement?

Answer: The STARS modules remain open all the time, so you will be able to complete the module work at a time that suits you. There are five modules, each with approximately 1.5–2 hours of reading and activities. Allow 7.5–10 hours in total to complete the STARS modules.

Question 18a: I'm interested in the timing of the STARS Canvas modules - when do they become available to students? Would I be able to access them at the beginning of the teaching period, as I'd like to start working on them before my placement?

Answer: The STARS modules remain open all the time, so you will be able to complete the module work at a time that suits you. There are five modules, each with approximately 1.5–2 hours of reading and activities. Allow 7.5–10 hours in total to complete the STARS modules.

Question 18b: Can you provide information on when the STARS Canvas modules open up for students? I'm hoping to have access to them at the start of the teaching period so that I can begin working on them before my placement.

Answer: The STARS modules remain open all the time, so you will be able to complete the module work at a time that suits you. There are five modules, each with approximately 1.5–2 hours of reading and activities. Allow 7.5–10 hours in total to complete the STARS modules.

Question 18c: I'm curious about the timeline for the STARS Canvas modules - when do they become accessible to students? Would I be able to start working on them at the beginning of the teaching period, in advance of my placement?

Answer: The STARS modules remain open all the time, so you will be able to complete the module work at a time that suits you. There are five modules, each with approximately 1.5–2 hours of reading and activities. Allow 7.5–10 hours in total to complete the STARS modules.

Question 18d: When are the STARS Canvas modules made available to students, and can I expect to have access to them at the start of the teaching period? I'm hoping to begin working on them before my placement starts.

Answer: The STARS modules remain open all the time, so you will be able to complete the module work at a time that suits you. There are five modules, each with approximately 1.5–2 hours of reading and activities. Allow 7.5–10 hours in total to complete the STARS modules.

Question 19: What will I receive at completion of this program?

Answer: You will receive a certificate of completion outlining your completion of the program. This certificate will be a valuable addition to your resume when applying for graduate teaching positions.

Question 19a: Upon finishing this program, what can I expect to receive as a qualification or recognition of completion?

Answer: You will receive a certificate of completion outlining your completion of the program. This certificate will be a valuable addition to your resume when applying for graduate teaching positions.

Question 19b: At the end of this program, what kind of certification or documentation will I receive?

Answer: You will receive a certificate of completion outlining your completion of the program. This certificate will be a valuable addition to your resume when applying for graduate teaching positions.

Question 19c: I'm curious about the tangible outcomes of completing this program - what kind of recognition or accreditation will I obtain?

Answer: You will receive a certificate of completion outlining your completion of the program. This certificate will be a valuable addition to your resume when applying for graduate teaching positions.

Question 19d: What kind of credential or proof of completion will I receive upon finishing this program?

Answer: You will receive a certificate of completion outlining your completion of the program. This certificate will be a valuable addition to your resume when applying for graduate teaching positions.

Question 20: Will there be any financial support for travel or accommodation to undertake a placement in regional or remote Victoria?

Answer: No, all costs associated with travel or accommodation will be incurred by the pre-service teacher. We hope to match pre-service teachers with a school in their area. If you are a successful applicant, and there may be travel involved for you to get to the school. We will discuss with you the situation before matching you to the school.

Question 20a: I'm wondering if there is any financial assistance available for travel or accommodation when completing a placement in regional or remote Victoria?

Answer: No, all costs associated with travel or accommodation will be incurred by the pre-service teacher. We hope to match pre-service teachers with a school in their area. If you are a successful applicant, and there may be travel involved for you to get to the school. We will discuss with you the situation before matching you to the school.

Question 20b: Is there any financial support provided to students who need to travel or find accommodation in order to undertake a placement in regional or remote Victoria?

Answer: No, all costs associated with travel or accommodation will be incurred by the pre-service teacher. We hope to match pre-service teachers with a school in their area. If you are a successful applicant, and there may be travel involved for you to get to the school. We will discuss with you the situation before matching you to the school.

Question 20c: When undertaking a placement in regional or remote Victoria, will there be any financial assistance available to help with travel or accommodation costs?

Answer: No, all costs associated with travel or accommodation will be incurred by the pre-service teacher. We hope to match pre-service teachers with a school in their area. If you are a successful applicant, and there may be travel involved for you to get to the school. We will discuss with you the situation before matching you to the school.

Question 20d: I'm curious if there are any programs in place to provide financial support for students who need to travel or find accommodation in order to complete a placement in regional or remote Victoria.

Answer: No, all costs associated with travel or accommodation will be incurred by the pre-service teacher. We hope to match pre-service teachers with a school in their area. If you are a successful applicant, and there may be travel involved for you to get to the school. We will discuss with you the situation before matching you to the school.

Question 21: I have secured a placement in a school setting that is not a regional, remote or low socioeconomic school. If I am successful in my application will you help me change to a STARS-approved school setting?

Answer: We will be open to discuss this with you further.

Question 21a: If I am successful in my application, can you assist me in transitioning to a school setting that meets the STARS criteria?

Answer: We will be open to discuss this with you further.

Question 21b: I've secured a position in a non-regional, non-remote, and non-low socioeconomic school, but I'm interested in transferring to a STARS-approved school. Would you be able to help me with that if my application is successful?

Answer: We will be open to discuss this with you further.

Question 21c: If I am accepted for the position, I would like to explore the possibility of transferring to a school that meets the STARS guidelines. Could you provide me with assistance in making that happen?

Answer: We will be open to discuss this with you further.

Question 21d: I have been offered a placement in a school that does not fit the STARS criteria, but I'm interested in working in a STARS-approved school. If my application is successful, would you be able to support me in making the switch?

Answer: We will be open to discuss this with you further.

Question 22: I am a Master of Teaching (Secondary) student applying for the STARS program. Does it matter the year level of placement or my Specialist Teaching Area?

Answer: No, we will work with the schools upon a successful application.

Question 22a: As a Master of Teaching (Secondary) student applying for the STARS program, should I be concerned about the year level or Specialist Teaching Area I am placed in?

Answer: No, we will work with the schools upon a successful application.

Question 22b: I'm applying for the STARS program as a Master of Teaching (Secondary) student, and I'm curious if my year level placement or Specialist Teaching Area will impact my eligibility for the program?

Answer: No, we will work with the schools upon a successful application.

Question 22c: As a Master of Teaching (Secondary) student seeking admission to the STARS program, is there any preference given to certain year levels or Specialist Teaching Areas?

Answer: No, we will work with the schools upon a successful application.

Question 22d: If I'm accepted into the STARS program as a Master of Teaching (Secondary) student, will the year level of my placement or my Specialist Teaching Area affect my eligibility or standing in the program?

Answer: No, we will work with the schools upon a successful application.

Question 23: What if I have already organised my placement/s? Can I still participate in the program?

Answer: Provided your secured placement is in regional, rural or low socioeconomic Victorian school and you have been successful in your STARS application, Swinburne can support negotiations with your placement setting to ascertain if they wish to be part of the program.

Question 23a: I've already secured a placement. Is it still possible for me to participate in the program?

Answer: Provided your secured placement is in regional, rural or low socioeconomic Victorian school and you have been successful in your STARS application, Swinburne can support negotiations with your placement setting to ascertain if they wish to be part of the program.

Question 23b: If I have already arranged my own placement, am I still eligible to take part in the program?

Answer: Provided your secured placement is in regional, rural or low socioeconomic Victorian school and you have been successful in your STARS application, Swinburne can support negotiations with your placement setting to ascertain if they wish to be part of the program.

Question 23c: What if I have already organized my own placement before learning about the program? Can I still participate?

Answer: Provided your secured placement is in regional, rural or low socioeconomic Victorian school and you have been successful in your STARS application, Swinburne can support negotiations with your placement setting to ascertain if they wish to be part of the program.

Question 23d: I've already arranged my placement. Would I still be able to join the program or is it only for students who need help securing placements?

Answer: Provided your secured placement is in regional, rural or low socioeconomic Victorian school and you have been successful in your STARS application, Swinburne can support negotiations with your placement setting to ascertain if they wish to be part of the program.

Question 24: How do I organise a placement in a STARS-approved school setting?

Answer: Victorian Department of Education and Training (DET) will be supporting Swinburne to access and source the placement schools on your behalf.

Question 24a: What steps do I need to take to secure a placement in a school that meets the STARS criteria?

Answer: Victorian Department of Education and Training (DET) will be supporting Swinburne to access and source the placement schools on your behalf.

Question 24b: How can I go about arranging a placement in a school that is STARS-approved?

Answer: Victorian Department of Education and Training (DET) will be supporting Swinburne to access and source the placement schools on your behalf.

Question 24c: If I want to do my placement in a STARS-approved school setting, what's the process for organizing that?

Answer: Victorian Department of Education and Training (DET) will be supporting Swinburne to access and source the placement schools on your behalf.

Question 24d: What resources or support are available to help me find and secure a placement in a school that meets the STARS requirements?

Answer: Victorian Department of Education and Training (DET) will be supporting Swinburne to access and source the placement schools on your behalf.

Question 25: What schools can I do my placement in as part of the STARS program?

Answer: The STARS program placement schools can be in regional and rural or low socioeconomic schools in Victoria that will be selected by Swinburne, with pre-service teachers matched to schools.

Question 25a: Which schools are eligible for the STARS program, and where can I do my placement as a participant?

Answer: The STARS program placement schools can be in regional and rural or low socioeconomic schools in Victoria that will be selected by Swinburne, with pre-service teachers matched to schools.

Question 25b: Can you tell me more about the types of schools where I can complete my placement as part of the STARS program?

Answer: The STARS program placement schools can be in regional and rural or low socioeconomic schools in Victoria that will be selected by Swinburne, with pre-service teachers matched to schools.

Question 25c: Are there specific criteria that a school needs to meet in order to be part of the STARS program and allow me to do my placement there?

Answer: The STARS program placement schools can be in regional and rural or low socioeconomic schools in Victoria that will be selected by Swinburne, with pre-service teachers matched to schools.

Question 25d: I'm interested in participating in the STARS program. Can you provide me with information about the schools that are available for me to do my placement in?

Answer: The STARS program placement schools can be in regional and rural or low socioeconomic schools in Victoria that will be selected by Swinburne, with pre-service teachers matched to schools.

Question 26: How many practicums will I need to complete during the STARS program?

Answer: During the year the program runs (mid-year 2022 to mid-year 2023), you must undertake both remaining placements (or the one remaining), in your course during this time.

Question 26a: What is the total number of practicums that I will need to complete as part of the STARS program?

Answer: During the year the program runs (mid-year 2022 to mid-year 2023), you must undertake both remaining placements (or the one remaining), in your course during this time.

Question 26b: As a participant in the STARS program, how many practicums will I be expected to complete in order to finish the program?

Answer: During the year the program runs (mid-year 2022 to mid-year 2023), you must undertake both remaining placements (or the one remaining), in your course during this time.

Question 26c: Are there specific requirements for the number of practicums that I need to complete in order to successfully participate in the STARS program?

Answer: During the year the program runs (mid-year 2022 to mid-year 2023), you must undertake both remaining placements (or the one remaining), in your course during this time.

Question 26d: Could you provide me with information on the number of practicums I will need to complete as part of the STARS program?

Answer: During the year the program runs (mid-year 2022 to mid-year 2023), you must undertake both remaining placements (or the one remaining), in your course during this time.

Question 27: How will the STARS program fit in with my current units of study?

Answer: This program will run alongside your current units of study. You will be enrolled into a STARS program unit. The unit is at no cost to you. Introductions to the STARS program are planned to commence in late May/early June. The STARS unit will commence from June. There are five modules of additional study and activities supported by academic teacher mentors. Engagement with the modules will be periodic, and is planned to occur between June to October 2022. The workload per module is anticipated to be approximately 10 hours over two to three weeks for each module. More specific details will be provided to successful applicants.

Question 27a: As a student, how will my participation in the STARS program be integrated with my current units of study?

Answer: This program will run alongside your current units of study. You will be enrolled into a STARS program unit. The unit is at no cost to you. Introductions to the STARS program are planned to commence in late May/early June. The STARS unit will commence from June. There are five modules of additional study and activities supported by academic teacher mentors. Engagement with the modules will be periodic, and is planned to occur between June to October 2022. The workload per module is anticipated to be approximately 10 hours over two to three weeks for each module. More specific details will be provided to successful applicants.

Question 27b: Will participating in the STARS program require me to take time off from my current units of study, or will it fit in with my existing schedule?

Answer: This program will run alongside your current units of study. You will be enrolled into a STARS program unit. The unit is at no cost to you. Introductions to the STARS program are planned to commence in late May/early June. The STARS unit will commence from June. There are five modules of additional study and activities supported by academic teacher mentors. Engagement with the modules will be periodic, and is planned to occur between June to October 2022. The workload per module is anticipated to be approximately 10 hours over two to three weeks for each module. More specific details will be provided to successful applicants.

Question 27c: How will the STARS program be scheduled in relation to my other academic commitments and units of study?

Answer: This program will run alongside your current units of study. You will be enrolled into a STARS program unit. The unit is at no cost to you. Introductions to the STARS program are planned to commence in late May/early June. The STARS unit will commence from June. There are five modules of additional study and activities supported by academic teacher mentors. Engagement with the modules will be periodic, and is planned to occur between June to October 2022. The workload per module is anticipated to be approximately 10 hours over two to three weeks for each module. More specific details will be provided to successful applicants.

Question 27d: What is the timeline or schedule for the STARS program, and how will it fit in with my current academic workload?

Answer: This program will run alongside your current units of study. You will be enrolled into a STARS program unit. The unit is at no cost to you. Introductions to the STARS program are planned to commence in late May/early June. The STARS unit will commence from June. There are five modules of additional study and activities supported by academic teacher mentors. Engagement with the modules will be periodic, and is planned to occur between June to October 2022. The workload per module is anticipated to be approximately 10 hours over two to three weeks for each module. More specific details will be provided to successful applicants.

Question 28: How many pre-service teachers can partake in the STARS program for 2022–2023 year?

Answer: This opportunity is only open to 75 students and therefore a rigorous selection process will take place.

Question 28a: What is the maximum number of pre-service teachers who can participate in the STARS program for the 2022-2023 year?

Answer: This opportunity is only open to 75 students and therefore a rigorous selection process will take place.

Question 28b: Is there a limit on the number of pre-service teachers who can take part in the STARS program for the upcoming academic year?

Answer: This opportunity is only open to 75 students and therefore a rigorous selection process will take place.

Question 28c: How many spots are available for pre-service teachers in the STARS program for the 2022-2023 year?

Answer: This opportunity is only open to 75 students and therefore a rigorous selection process will take place.

Question 28d: Could you provide me with information on the number of pre-service teachers who will be accepted into the STARS program for the 2022-2023 academic year?

Answer: This opportunity is only open to 75 students and therefore a rigorous selection process will take place.

Question 29: When does the STARS program commence?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 29a: When is the STARS program scheduled to begin for the upcoming academic year?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 29b: Is there a specific date when the STARS program will commence, or is it ongoing throughout the academic year?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 29c: Could you provide me with information on the start date for the STARS program, and when I can expect to begin my placement?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 29d: When does the STARS program typically begin each academic year, and how can I prepare for the start of the program?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 30: What if I want to continue studying after 1 December 2020?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 30a: What are the options available for continuing my studies after December 1st, 2020?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 30b: Can I still enroll in a course or program after the December 1st deadline?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 30c: How can I pursue further education after December 1st, 2020?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 30d: Are there any alternative paths for continuing my education after the December 1st cutoff?

Answer: You can. If you wish to continue studying the course after 1 December 2020, you will be eligible for a Commonwealth Supported Place for the rest of your studies.

Question 31: Can I enrol in a Professional Certificate?

Answer: Not exactly. The federal government is providing discounts for students who are enrolled in qualifications recognised by the Australian Qualification Framework. This means, to ensure you receive the discounted course fee, you need to enrol in at least a graduate certificate level

qualification. If you only complete the first two units, Swinburne is ensuring that you still receive a qualification by awarding you a professional certificate.

Question 31a: Is it possible to register for a Professional Certificate program?

Answer: Not exactly. The federal government is providing discounts for students who are enrolled in qualifications recognised by the Australian Qualification Framework. This means, to ensure you receive the discounted course fee, you need to enrol in at least a graduate certificate level qualification. If you only complete the first two units, Swinburne is ensuring that you still receive a qualification by awarding you a professional certificate.

Question 31b: What are the requirements for enrolling in a Professional Certificate program?

Answer: Not exactly. The federal government is providing discounts for students who are enrolled in qualifications recognised by the Australian Qualification Framework. This means, to ensure you receive the discounted course fee, you need to enrol in at least a graduate certificate level qualification. If you only complete the first two units, Swinburne is ensuring that you still receive a qualification by awarding you a professional certificate.

Question 31c: How can I enrol in a Professional Certificate program alongside my current studies?

Answer: Not exactly. The federal government is providing discounts for students who are enrolled in qualifications recognised by the Australian Qualification Framework. This means, to ensure you receive the discounted course fee, you need to enrol in at least a graduate certificate level qualification. If you only complete the first two units, Swinburne is ensuring that you still receive a qualification by awarding you a professional certificate.

Question 31d: Am I eligible to apply for a Professional Certificate program?

Answer: Not exactly. The federal government is providing discounts for students who are enrolled in qualifications recognised by the Australian Qualification Framework. This means, to ensure you receive the discounted course fee, you need to enrol in at least a graduate certificate level qualification. If you only complete the first two units, Swinburne is ensuring that you still receive a qualification by awarding you a professional certificate.

Question 32: What is a Professional Certificate?

Answer: Professional Certificates are generally the first two units of a Graduate or Undergraduate Certificate and provide you with solid introductory knowledge, as well as contributing to the higher degree should you wish to continue studying later. Professional Certificates are a good way of upskilling quickly and providing you with an opportunity to start your education journey at a discounted fee.

Answer: Yes, students can defer their payment through a HECS-HELP loan.

Question 34c: Is financial aid available for deferring payment of my expenses?

Answer: Yes, students can defer their payment through a HECS-HELP loan.

Question 34d: Can I request a payment plan to help me defer my payments?

Answer: Yes, students can defer their payment through a HECS-HELP loan.

Question 35: How do I ensure I'm enrolled with a discounted fee?

Answer: Your discounted fee will be applied at the time of enrolment.

Question 35a: What steps do I need to take to make sure I am registered for a program with a reduced fee?

Answer: Your discounted fee will be applied at the time of enrolment.

Question 35b: Are there any requirements or qualifications that I need to meet to qualify for a discounted enrollment fee?

Answer: Your discounted fee will be applied at the time of enrolment.

Question 35c: Is there someone I can contact for assistance in ensuring that I am enrolled with a discounted fee?

Answer: Your discounted fee will be applied at the time of enrolment.

Question 35d: What is the process for obtaining a reduced enrollment fee?

Answer: Your discounted fee will be applied at the time of enrolment.

Question 36: Why are these courses discounted?

Answer: Swinburne University has worked with the Federal Government to provide short, focused online courses to workers displaced by the COVID-19 crisis. These courses have been significantly discounted to allow you to complete study during the next 6 months and support your future employment opportunities.

Question 36a: What is the reason for the reduced cost of these courses?

Answer: Swinburne University has worked with the Federal Government to provide short, focused online courses to workers displaced by the COVID-19 crisis. These courses have been significantly discounted to allow you to complete study during the next 6 months and support your future employment opportunities.

Question 36b: What is the reason for the price reduction on these courses?

Answer: Swinburne University has worked with the Federal Government to provide short, focused online courses to workers displaced by the COVID-19 crisis. These courses have been significantly discounted to allow you to complete study during the next 6 months and support your future employment opportunities.

Question 36c: What is the motivation behind the discount on these courses?

Answer: Swinburne University has worked with the Federal Government to provide short, focused online courses to workers displaced by the COVID-19 crisis. These courses have been significantly discounted to allow you to complete study during the next 6 months and support your future employment opportunities.

Question 36d: Is there a specific reason why these courses are being offered at a lower cost?

Answer: Swinburne University has worked with the Federal Government to provide short, focused online courses to workers displaced by the COVID-19 crisis. These courses have been significantly discounted to allow you to complete study during the next 6 months and support your future employment opportunities.

Question 37: What is the entry criteria?

Answer: Undergraduate Certificate of Information and Communication Technology

Teaching Period 2 July – November COS10005 Web Development ICT10001 Problem Solving with ICT

Question 39: Is the whole course discounted?

Answer: Units you complete prior to 1 December are discounted, so this includes the two units available in Teaching Period 2, 2020. If you continue studying following Teaching Period 2, you can do so with a Commonwealth Supported Place, rather than the standard full fee unit fee.

Question 39a: Will I receive a discount for the entire duration of the course?

Answer: Units you complete prior to 1 December are discounted, so this includes the two units available in Teaching Period 2, 2020. If you continue studying following Teaching Period 2, you can do so with a Commonwealth Supported Place, rather than the standard full fee unit fee.

Question 39b: Is the reduced fee applicable to the entire program or just specific units?

Answer: Units you complete prior to 1 December are discounted, so this includes the two units available in Teaching Period 2, 2020. If you continue studying following Teaching Period 2, you can do so with a Commonwealth Supported Place, rather than the standard full fee unit fee.

Question 39c: Does the reduced fee apply to the entire duration of the course?

Answer: Units you complete prior to 1 December are discounted, so this includes the two units available in Teaching Period 2, 2020. If you continue studying following Teaching Period 2, you can do so with a Commonwealth Supported Place, rather than the standard full fee unit fee.

Question 39d: Are all units of the course being offered at a discounted rate?

Answer: Units you complete prior to 1 December are discounted, so this includes the two units available in Teaching Period 2, 2020. If you continue studying following Teaching Period 2, you can do so with a Commonwealth Supported Place, rather than the standard full fee unit fee.

Question 40: Will you be offering courses as part of the government's higher education relief package?

Answer: Yes, we will be offering a range of courses as part of this initiative. Read more about our priority course program.

Question 40a: Will the courses that you offer be eligible for the higher education relief package?

Answer: Yes, we will be offering a range of courses as part of this initiative. Read more about our priority course program.

Question 40b: Can you confirm whether the courses that you will offer will be part of the government's higher education relief package?

Answer: Yes, we will be offering a range of courses as part of this initiative. Read more about our priority course program.

Question 40c: Will the tuition fees for your courses be covered under the government's higher education relief package?

Answer: Yes, we will be offering a range of courses as part of this initiative. Read more about our priority course program.

Question 40d: Are your courses eligible for the higher education relief package offered by the government?

Answer: Yes, we will be offering a range of courses as part of this initiative. Read more about our priority course program.

Question 41: Will I receive the same qualification as an on-campus student?

Answer: When students graduate from our courses, they will receive the same accredited qualification as a Swinburne University of Technology on-campus student. The graduation certificate awarded will also be the same. Our courses and learning outcomes are the same as Swinburne University of Technology's, but we adapt the material and its delivery to enable students to enjoy the most engaging online environment.

Question 41a: Will the online program result in the same degree or certification as the on-campus program?

Answer: When students graduate from our courses, they will receive the same accredited qualification as a Swinburne University of Technology on-campus student. The graduation certificate awarded will also be the same. Our courses and learning outcomes are the same as Swinburne University of Technology's, but we adapt the material and its delivery to enable students to enjoy the most engaging online environment.

Question 41b: Is the qualification that I receive from the online program equivalent to the one awarded to on-campus students?

Answer: When students graduate from our courses, they will receive the same accredited qualification as a Swinburne University of Technology on-campus student. The graduation certificate awarded will also be the same. Our courses and learning outcomes are the same as Swinburne University of Technology's, but we adapt the material and its delivery to enable students to enjoy the most engaging online environment.

Question 41c: Are there any differences in the certification or qualification between the online and on-campus program?

Answer: When students graduate from our courses, they will receive the same accredited qualification as a Swinburne University of Technology on-campus student. The graduation certificate awarded will also be the same. Our courses and learning outcomes are the same as Swinburne University of Technology's, but we adapt the material and its delivery to enable students to enjoy the most engaging online environment.

Question 41d: Can you confirm that the online program offers the same level of accreditation or certification as the on-campus program?

Answer: When students graduate from our courses, they will receive the same accredited qualification as a Swinburne University of Technology on-campus student. The graduation certificate awarded will also be the same. Our courses and learning outcomes are the same as Swinburne University of Technology's, but we adapt the material and its delivery to enable students to enjoy the most engaging online environment.

Question 42: Will I receive credit for my previous studies?

Answer: We can potentially offer students unit exemptions for our undergraduate courses, based on diploma and higher education qualifications undertaken within the last 10 years.

Previous studies don't necessarily need to be related to the field you're looking to pursue with us to make you eligible for exemptions. We can also award unit exemptions towards our postgraduate courses, where previously completed studies are considered academically equivalent (i.e. postgraduate level) and have been completed within the last 10 years.

TAFE students may be eligible to receive credit for previous study and work experience. If you've completed units or certificates at another recognised institute or training organisation, you may be able to apply for a credit transfer. Alternatively, if you have significant work experience related to your studies, you can apply to have this recognised through recognition of prior learning.

Question 42a: Will my previous academic achievements be taken into account when assessing my eligibility for this course?

Answer: We can potentially offer students unit exemptions for our undergraduate courses, based on diploma and higher education qualifications undertaken within the last 10 years.

Previous studies don't necessarily need to be related to the field you're looking to pursue with us to make you eligible for exemptions. We can also award unit exemptions towards our postgraduate courses, where previously completed studies are considered academically equivalent (i.e. postgraduate level) and have been completed within the last 10 years.

TAFE students may be eligible to receive credit for previous study and work experience. If you've completed units or certificates at another recognised institute or training organisation, you may be able to apply for a credit transfer. Alternatively, if you have significant work experience related to your studies, you can apply to have this recognised through recognition of prior learning.

Question 42b: Can I receive credit for the courses or units that I have already completed in a similar program?

Answer: We can potentially offer students unit exemptions for our undergraduate courses, based on diploma and higher education qualifications undertaken within the last 10 years.

Previous studies don't necessarily need to be related to the field you're looking to pursue with us to make you eligible for exemptions. We can also award unit exemptions towards our postgraduate courses, where previously completed studies are considered academically equivalent (i.e. postgraduate level) and have been completed within the last 10 years.

If you've completed units or certificates at another recognised institute or training organisation, you may be able to apply for a credit transfer. Alternatively, if you have significant work experience related to your studies, you can apply to have this recognised through recognition of prior learning.

Question 43: Will I need to be screened to work with children?

Answer: Anyone who works with children in Australia must have a valid Child Safety Screening Check. To ensure your placements run smoothly and there are no delays in your course progression make sure you complete the Child Safety Screening Check requirements for your state as soon as you enrol. You will have access to instructions for your state once you're enrolled in your course.

Question 43a: Is a background check required for individuals working with children in this program?

Answer: Anyone who works with children in Australia must have a valid Child Safety Screening Check. To ensure your placements run smoothly and there are no delays in your course progression make sure you complete the Child Safety Screening Check requirements for your state as soon as you enrol. You will have access to instructions for your state once you're enrolled in your course.

Question 43b: Do I need to undergo a background check before I can work with children as part of this program?

Answer: Anyone who works with children in Australia must have a valid Child Safety Screening Check. To ensure your placements run smoothly and there are no delays in your course progression make sure you complete the Child Safety Screening Check requirements for your state as soon as you enrol. You will have access to instructions for your state once you're enrolled in your course.

Question 43c: Are there any legal or regulatory requirements for working with children in this program that I need to be aware of?

Answer: Anyone who works with children in Australia must have a valid Child Safety Screening Check. To ensure your placements run smoothly and there are no delays in your course progression make sure you complete the Child Safety Screening Check requirements for your state as soon as you enrol. You will have access to instructions for your state once you're enrolled in your course.

Question 43d: Do I need to obtain clearance or certification to work with children as part of this program?

Answer: Anyone who works with children in Australia must have a valid Child Safety Screening Check. To ensure your placements run smoothly and there are no delays in your course progression make sure you complete the Child Safety Screening Check requirements for your state as soon as you enrol. You will have access to instructions for your state once you're enrolled in your course.

Question 44: Will I need to attend placements to complete the Diploma of Nursing?

Answer: The majority of your learning will be completed online, however you will also have the opportunity to attend Simulation Labs and Clinical Placements during your course. These aspects incorporate essential practical and experiential learning elements to your learning and better prepare you for working as a nurse. Students are required to achieve a minimum of 400 hours of Clinical Placement throughout the course's two-year duration.

Question 44a: Can you confirm if there is a mandatory placement requirement for students enrolled in the Diploma of Nursing program?

Answer: The majority of your learning will be completed online, however you will also have the opportunity to attend Simulation Labs and Clinical Placements during your course. These aspects incorporate essential practical and experiential learning elements to your learning and better prepare you for working as a nurse. Students are required to achieve a minimum of 400 hours of Clinical Placement throughout the course's two-year duration.

Question 44b: Will I need to undertake any clinical hours or practical placements to complete the Diploma of Nursing program?

Answer: The majority of your learning will be completed online, however you will also have the opportunity to attend Simulation Labs and Clinical Placements during your course. These aspects incorporate essential practical and experiential learning elements to your learning and better prepare you for working as a nurse. Students are required to achieve a minimum of 400 hours of Clinical Placement throughout the course's two-year duration.

Question 44c: Are there any practical components that I need to complete, such as placements or work experience, to fulfill the requirements of the Diploma of Nursing?

Answer: The majority of your learning will be completed online, however you will also have the opportunity to attend Simulation Labs and Clinical Placements during your course. These aspects incorporate essential practical and experiential learning elements to your learning and better prepare you for working as a nurse. Students are required to achieve a minimum of 400 hours of Clinical Placement throughout the course's two-year duration.

Question 44d: Is there a requirement for clinical placements as part of the Diploma of Nursing program?

Answer: The majority of your learning will be completed online, however you will also have the opportunity to attend Simulation Labs and Clinical Placements during your course. These aspects incorporate essential practical and experiential learning elements to your learning and better prepare you for working as a nurse. Students are required to achieve a minimum of 400 hours of Clinical Placement throughout the course's two-year duration.

Question 45: Will I have to sit exams in the Diploma of Nursing?

Answer: Yes, some of your units in the Diploma of Nursing course require you to sit exams. More information about exams and your study support options will be discussed on orientation day.

Question 45a: Are there any assessments in the Diploma of Nursing program that involve sitting exams?

Answer: Yes, some of your units in the Diploma of Nursing course require you to sit exams. More information about exams and your study support options will be discussed on orientation day.

Question 45b: Will the assessments for the Diploma of Nursing program include exams or other types of assessments?

Answer: Yes, some of your units in the Diploma of Nursing course require you to sit exams. More information about exams and your study support options will be discussed on orientation day.

Question 45c: Can you provide details on the types of assessments that I will be required to complete in the Diploma of Nursing program?

Answer: Yes, some of your units in the Diploma of Nursing course require you to sit exams. More information about exams and your study support options will be discussed on orientation day.

Question 45d: Is it necessary to sit for any form of exams as part of the Diploma of Nursing program?

Answer: Yes, some of your units in the Diploma of Nursing course require you to sit exams. More information about exams and your study support options will be discussed on orientation day.

Question 46: Will I ever need to go to a campus?

Answer: We provide you with everything you need to complete your studies online, however, you have access to all the facilities the campus has to offer.

Question 46a: Is there a requirement for on-campus attendance for any component of this program?

Answer: We provide you with everything you need to complete your studies online, however, you have access to all the facilities the campus has to offer.

Question 46b: Will any part of the program require me to physically attend a campus or in-person sessions?

Answer: We provide you with everything you need to complete your studies online, however, you have access to all the facilities the campus has to offer.

Question 46c: Can the entire program be completed remotely, or is there a need to attend campus at any point?

Answer: We provide you with everything you need to complete your studies online, however, you have access to all the facilities the campus has to offer.

Question 46d: Is on-campus attendance mandatory at any stage of the program, or can it be completed entirely online?

Answer: We provide you with everything you need to complete your studies online, however, you have access to all the facilities the campus has to offer.

Question 47: Will I be studying alone?

Answer: We know how important it is to have a supportive and collaborative network around you when you're studying. When you choose your units, we'll enrol you into an online class of 20-25 students. Small class sizes ensure that you receive quick and effective feedback from tutors. You will also be encouraged to collaborate on discussion boards with other students.

Question 47a: Is the program fully self-paced, or will I have interaction with other students or instructors?

Answer: We know how important it is to have a supportive and collaborative network around you when you're studying. When you choose your units, we'll enrol you into an online class of 20-25 students. Small class sizes ensure that you receive quick and effective feedback from tutors. You will also be encouraged to collaborate on discussion boards with other students.

Question 47b: Is there an opportunity for collaboration with other students during the program, or will I be studying independently?

Answer: We know how important it is to have a supportive and collaborative network around you when you're studying. When you choose your units, we'll enrol you into an online class of 20-25 students. Small class sizes ensure that you receive quick and effective feedback from tutors. You will also be encouraged to collaborate on discussion boards with other students.

Question 47c: Will there be any group work or team assignments, or is the program designed for individual study?

Answer: We know how important it is to have a supportive and collaborative network around you when you're studying. When you choose your units, we'll enrol you into an online class of 20-25 students. Small class sizes ensure that you receive quick and effective feedback from tutors. You will also be encouraged to collaborate on discussion boards with other students.

Question 47d: Can you provide details on the level of interaction with instructors or other students that is available in the program?

Answer: We know how important it is to have a supportive and collaborative network around you when you're studying. When you choose your units, we'll enrol you into an online class of 20-25 students. Small class sizes ensure that you receive quick and effective feedback from tutors. You will also be encouraged to collaborate on discussion boards with other students.

Question 48: Will I be charged interest on my HECS-HELP loan?

Answer: There is no interest charged on a HECS-HELP loans, but your debt will be indexed each year. The indexation adjustment is made by the Australian Taxation Office on 1 June each year and applies to the portion of your debt that has been unpaid for 11 months or more. For more information see Interest and indexation.

Question 48a: Is interest charged on HECS-HELP loans, and if so, what is the current interest rate?

Answer: There is no interest charged on a HECS-HELP loans, but your debt will be indexed each year. The indexation adjustment is made by the Australian Taxation Office on 1 June each year and applies to the portion of your debt that has been unpaid for 11 months or more. For more information see Interest and indexation.

Question 48b: Can you provide details on the interest charges associated with HECS-HELP loans?

Answer: There is no interest charged on a HECS-HELP loans, but your debt will be indexed each year. The indexation adjustment is made by the Australian Taxation Office on 1 June each year and applies to the portion of your debt that has been unpaid for 11 months or more. For more information see Interest and indexation.

Question 48c: Are there any circumstances where interest charges may be waived or deferred for HECS-HELP loans?

Answer: There is no interest charged on a HECS-HELP loans, but your debt will be indexed each year. The indexation adjustment is made by the Australian Taxation Office on 1 June each year and applies to the portion of your debt that has been unpaid for 11 months or more. For more information see Interest and indexation.

Question 48d: Will interest be charged on my HECS-HELP loan while I am studying or only after I have completed my program?

Answer: There is no interest charged on a HECS-HELP loans, but your debt will be indexed each year. The indexation adjustment is made by the Australian Taxation Office on 1 June each year and applies to the portion of your debt that has been unpaid for 11 months or more. For more information see Interest and indexation.

Question 49: Why is the Diploma of Nursing changing?

Answer: In late 2020, the federal Government announced changes to the current national health training package. As a result, Vocational Education and Training (VET) providers across Australia are now required to update their courses to implement these changes, including Swinburne Online. This is in effort to enhance VET qualifications and ensure students are developing the skills that employers require in the future.

Question 49a: What are the reasons for the changes to the Diploma of Nursing program?

Answer: In late 2020, the federal Government announced changes to the current national health training package. As a result, Vocational Education and Training (VET) providers across Australia are now required to update their courses to implement these changes, including Swinburne Online. This is in effort to enhance VET qualifications and ensure students are developing the skills that employers require in the future.

Question 49b: Can you provide more information on the factors that led to the decision to make changes to the Diploma of Nursing program?

Answer: In late 2020, the federal Government announced changes to the current national health training package. As a result, Vocational Education and Training (VET) providers across Australia are now required to update their courses to implement these changes, including Swinburne Online. This is in effort to enhance VET qualifications and ensure students are developing the skills that employers require in the future.

Question 49c: How will the changes to the Diploma of Nursing program improve the learning experience for students?

Answer: In late 2020, the federal Government announced changes to the current national health training package. As a result, Vocational Education and Training (VET) providers across Australia are now required to update their courses to implement these changes, including Swinburne Online. This is in effort to enhance VET qualifications and ensure students are developing the skills that employers require in the future.

Question 49d: What specific aspects of the Diploma of Nursing program are being changed, and why were those areas identified for improvement?

Answer: In late 2020, the federal Government announced changes to the current national health training package. As a result, Vocational Education and Training (VET) providers across Australia are now required to update their courses to implement these changes, including Swinburne Online. This is in effort to enhance VET qualifications and ensure students are developing the skills that employers require in the future.

Question 50: Why is Swinburne Online a good study option during isolation?

Answer: The courses we offer have been designed specifically for online consumption. You'll study in a purpose-built virtual classroom with extended hours of support, allowing you to study whenever you like. With over 10,000 students currently studying with us, you can rest assured that our online study has been tried, tested and approved by many. All you need is an internet connection.

Question 50a: What makes Swinburne Online a suitable choice for students who are unable to attend traditional face-to-face classes due to isolation or quarantine?

Answer: The courses we offer have been designed specifically for online consumption. You'll study in a purpose-built virtual classroom with extended hours of support, allowing you to study whenever you like. With over 10,000 students currently studying with us, you can rest assured that our online study has been tried, tested and approved by many. All you need is an internet connection.

Question 50b: How does Swinburne Online support students who may be studying in isolation, and what resources are available to them?

Answer: The courses we offer have been designed specifically for online consumption. You'll study in a purpose-built virtual classroom with extended hours of support, allowing you to study whenever you like. With over 10,000 students currently studying with us, you can rest assured that our online study has been tried, tested and approved by many. All you need is an internet connection.

Question 50c: Are there any advantages to studying with Swinburne Online during periods of isolation or social distancing?

Answer: The courses we offer have been designed specifically for online consumption. You'll study in a purpose-built virtual classroom with extended hours of support, allowing you to study whenever you like. With over 10,000 students currently studying with us, you can rest assured that our online study has been tried, tested and approved by many. All you need is an internet connection.

Question 50d: Can you provide examples of how Swinburne Online has helped students continue their studies and achieve their goals during times of isolation or lockdown?

Answer: The courses we offer have been designed specifically for online consumption. You'll study in a purpose-built virtual classroom with extended hours of support, allowing you to study whenever you like. With over 10,000 students currently studying with us, you can rest assured that our online study has been tried, tested and approved by many. All you need is an internet connection.

Question 51: Who can I contact for support during my studies?

Answer: Your academic and student support teams are here to assist you with different aspects of your studies. Your Vocation Learning Advisor (VLA) is your go-to person to help you through your learning journey. Your VLA is extremely experienced, is a Registered Nurse and a qualified Training and Assessor. You will also have Student Advisors available seven days a week to assist with any

general queries you may have, including those about your enrolment details, placements, exams and academic performance.

Question 51a: Who can I reach out to if I need help while I'm studying?

Answer: Your academic and student support teams are here to assist you with different aspects of your studies. Your Vocation Learning Advisor (VLA) is your go-to person to help you through your learning journey. Your VLA is extremely experienced, is a Registered Nurse and a qualified Training and Assessor. Answer: Technical and Further Education (TAFE) is the term used to describe certain state-administered education institutions. Such institutions provide Vocational Education and Training (VET) and qualifying courses under the National Training System, Australian Qualifications Framework and Australian Quality Training Network. A Registered Training Organisation (RTO) is an organisation accredited by the Australian Skills Quality Authority (ASQA) which is the national regulator for Australia's vocational education and training sector. ASQA regulates courses and training providers to ensure nationally approved quality standards are met.

Question 78: What is Postgraduate Study?

Answer: Postgraduate study is a term generally used to describe tertiary education courses available to students who have already completed a bachelor degree or have significant relevant work experience. Postgraduate study takes the form of either coursework or research. Coursework consists of a program of academic study to achieve one or more of the following:

- Graduate Certificate
- Graduate Diploma
- Postgraduate Diploma
- Master by Coursework
- Professional Master
- Professional Doctorate

Taking a research approach to postgraduate study entails conducting research and providing a thesis to earn a:

- Master by Research or
- Doctor of Philosophy (PhD).

Question 78a: Can you explain what postgraduate study entails, and how it differs from undergraduate study?

Answer: Postgraduate study is a term generally used to describe tertiary education courses available to students who have already completed a bachelor degree or have significant relevant work experience. Postgraduate study takes the form of either coursework or research. Coursework consists of a program of academic study to achieve one or more of the following:

- Graduate Certificate
- Graduate Diploma
- Postgraduate Diploma
- Master by Coursework
- Professional Master
- Professional Doctorate

Taking a research approach to postgraduate study entails conducting research and providing a thesis to earn a:

- Master by Research or
- Doctor of Philosophy (PhD).

Question 78b: What are the different types of postgraduate study available, and what kinds of academic qualifications can be obtained through these programs?

Answer: Postgraduate study is a term generally used to describe tertiary education courses available to students who have already completed a bachelor degree or have significant relevant work experience. Postgraduate study takes the form of either coursework or research. Coursework consists of a program of academic study to achieve one or more of the following:

- Graduate Certificate
- Graduate Diploma
- Postgraduate Diploma
- Master by Coursework
- Professional Master
- Professional Doctorate

Taking a research approach to postgraduate study entails conducting research and providing a thesis to earn a:

- Master by Research or
- Doctor of Philosophy (PhD).

Question 78c: How does postgraduate study prepare students for advanced or specialized career paths, and what are the advantages of pursuing a postgraduate degree?

Answer: Postgraduate study is a term generally used to describe tertiary education courses available to students who have already completed a bachelor degree or have significant relevant work experience. Postgraduate study takes the form of either coursework or research. Coursework consists of a program of academic study to achieve one or more of the following:

- Graduate Certificate
- Graduate Diploma
- Postgraduate Diploma
- Master by Coursework
- Professional Master
- Professional Doctorate

Taking a research approach to postgraduate study entails conducting research and providing a thesis to earn a:

- Master by Research or
- Doctor of Philosophy (PhD).

Question 78d: What are the eligibility requirements for admission to postgraduate programs, and how does the application process differ from undergraduate admissions?

Answer: Postgraduate study is a term generally used to describe tertiary education courses available to students who have already completed a bachelor degree or have significant relevant work experience. Postgraduate study takes the form of either coursework or research. Coursework consists of a program of academic study to achieve one or more of the following:

- Graduate Certificate
- Graduate Diploma
- Postgraduate Diploma

- Master by Coursework
- Professional Master
- Professional Doctorate

Taking a research approach to postgraduate study entails conducting research and providing a thesis to earn a:

- Master by Research or
- Doctor of Philosophy (PhD).

Question 79: What is online education?

Answer: Online education utilises breakthrough web technologies to deliver academic courses. When undertaking online study, students may use a range of tools such as webinars, videos, chat sessions and e-texts to deliver content. Assessments can be undertaken synchronously or asynchronously. Synchronous learning refers to situations where online participation from a student is required at a certain time. This may involve a live discussion session with an online tutor, or a presentation which is only available to be viewed at that time. Asynchronous learning involves study where the event is not in a live format, but it may still have a loose timeframe, for example: an assessment that will be accessible at any time over a week long period. Both of these learning styles are utilised to their optimum when studying with Swinburne Online.

Question 79a: How does online education differ from traditional face-to-face classroom learning, and what are the benefits and challenges of each mode of instruction?

Answer: Online education utilises breakthrough web technologies to deliver academic courses. When undertaking online study, students may use a range of tools such as webinars, videos, chat sessions and e-texts to deliver content. Assessments can be undertaken synchronously or asynchronously. Synchronous learning refers to situations where online participation from a student is required at a certain time. This may involve a live discussion session with an online tutor, or a presentation which is only available to be viewed at that time. Asynchronous learning involves study where the event is not in a live format, but it may still have a loose timeframe, for example: an assessment that will be accessible at any time over a week long period. Both of these learning styles are utilised to their optimum when studying with Swinburne Online.

Question 79b: What kinds of courses and degree programs are available through online education, and how do they compare to those offered by traditional universities and colleges?

Answer: Online education utilises breakthrough web technologies to deliver academic courses. When undertaking online study, students may use a range of tools such as webinars, videos, chat sessions and e-texts to deliver content. Assessments can be undertaken synchronously or asynchronously. Synchronous learning refers to situations where online participation from a student is required at a certain time. This may involve a live discussion session with an online tutor, or a presentation which is only available to be viewed at that time. Asynchronous learning involves study where the event is not in a live format, but it may still have a loose timeframe, for example: an assessment that will be accessible at any time over a week long period. Both of these learning styles are utilised to their optimum when studying with Swinburne Online.

Question 79c: What technological tools and platforms are commonly used in online education, and how do they facilitate interaction and engagement between students and instructors?

Answer: Online education utilises breakthrough web technologies to deliver academic courses. When undertaking online study, students may use a range of tools such as webinars, videos, chat sessions and e-texts to deliver content. Assessments can be undertaken synchronously or asynchronously. Synchronous learning refers to situations where online participation from a student is required at a certain time. This may involve a live discussion session with an online tutor, or a presentation which is only available to be viewed at that time. Asynchronous learning involves study where the event is not in a live format, but it may still have a loose timeframe, for example: an assessment that will be accessible at any time over a week long period. Both of these learning styles are utilised to their optimum when studying with Swinburne Online.

Question 79d: What kinds of support and resources are available to students who are pursuing online education, and how do they differ from those available to students in traditional learning environments?

Answer: Online education utilises breakthrough web technologies to deliver academic courses. When undertaking online study, students may use a range of tools such as webinars, videos, chat sessions and e-texts to deliver content. Assessments can be undertaken synchronously or asynchronously. Synchronous learning refers to situations where online participation from a student is required at a certain time. Both of these learning styles are utilised to their optimum when studying with Swinburne Online.

Question 80: What is Higher Education?

Answer: Higher education encompasses Bachelor level degrees and above and is offered by universities. Whether you're entering or re-entering the workforce, changing career paths or simply

want to broaden your expertise, higher education will help you achieve your career goals with courses ranging from bachelor degrees, masters degrees, doctorates and more. Each course requires different commitments in terms of time, cost and pre-requisite or foundation study or experience.

Question 80a: What distinguishes higher education from other types of education?

Answer: Higher education encompasses Bachelor level degrees and above and is offered by universities. Whether you're entering or re-entering the workforce, changing career paths or simply want to broaden your expertise, higher education will help you achieve your career goals with courses ranging from bachelor degrees, masters degrees, doctorates and more. Each course requires different commitments in terms of time, cost and pre-requisite or foundation study or experience.

Question 80b: What are the benefits of pursuing higher education?

Answer: Higher education encompasses Bachelor level degrees and above and is offered by universities. Whether you're entering or re-entering the workforce, changing career paths or simply want to broaden your expertise, higher education will help you achieve your career goals with courses ranging from bachelor degrees, masters degrees, doctorates and more. Each course requires different commitments in terms of time, cost and pre-requisite or foundation study or experience.

Question 80c: What types of qualifications can you obtain through higher education?

Answer: Higher education encompasses Bachelor level degrees and above and is offered by universities. Whether you're entering or re-entering the workforce, changing career paths or simply want to broaden your expertise, higher education will help you achieve your career goals with courses ranging from bachelor degrees, masters degrees, doctorates and more. Each course requires different commitments in terms of time, cost and pre-requisite or foundation study or experience.

Question 80d: How is higher education funded and regulated in Australia?

Answer: Higher education encompasses Bachelor level degrees and above and is offered by universities. Whether you're entering or re-entering the workforce, changing career paths or simply want to broaden your expertise, higher education will help you achieve your career goals with courses ranging from bachelor degrees, masters degrees, doctorates and more. Each course requires different commitments in terms of time, cost and pre-requisite or foundation study or experience.

Question 81: What is HECS-HELP?

Answer: The HECS-HELP scheme can benefit an undergraduate domestic student (for example an Australian citizen studying a Bachelor degree at Swinburne Online) as a student loan. Instead of paying upfront, HECS-HELP is how eligible students can pay their student contribution amount.

Question 81a: How does HECS-HELP work and what does it cover?

Answer: The HECS-HELP scheme can benefit an undergraduate domestic student (for example an Australian citizen studying a Bachelor degree at Swinburne Online) as a student loan. Instead of paying upfront, HECS-HELP is how eligible students can pay their student contribution amount.

Question 81b: What are the eligibility criteria for HECS-HELP?

Answer: The HECS-HELP scheme can benefit an undergraduate domestic student (for example an Australian citizen studying a Bachelor degree at Swinburne Online) as a student loan. Instead of paying upfront, HECS-HELP is how eligible students can pay their student contribution amount.

Question 81c: How do I apply for HECS-HELP and when do I need to repay my debt?

Answer: The HECS-HELP scheme can benefit an undergraduate domestic student (for example an Australian citizen studying a Bachelor degree at Swinburne Online) as a student loan. Instead of paying upfront, HECS-HELP is how eligible students can pay their student contribution amount.

Question 81d: Are there any alternatives to HECS-HELP for financing higher education?

Answer: The HECS-HELP scheme can benefit an undergraduate domestic student (for example an Australian citizen studying a Bachelor degree at Swinburne Online) as a student loan. Instead of paying upfront, HECS-HELP is how eligible students can pay their student contribution amount.

Question 82: What is Distance Education?

Answer: Distance education (sometimes known as learning by correspondence) is a broad term that describes education delivered to a student who is in a separate location to the source of the academic content. This method of education has been around since the 1800s and in comparison with online education, which is offered by Swinburne Online, it is often viewed by professionals as outdated. The mode of delivery traditionally involves sending the course materials and assessments back and forth between the student and learning institution in hard copy. Many distance education programs require the student to attend classes or workshops on campus at some stage during the semester.

Question 82a: What is the meaning of Distance Education?

Answer: Distance education (sometimes known as learning by correspondence) is a broad term that describes education delivered to a student who is in a separate location to the source of the academic content. This method of education has been around since the 1800s and in comparison with online education, which is offered by Swinburne Online, it is often viewed by professionals as outdated. The mode of delivery traditionally involves sending the course materials and assessments back and forth between the student and learning institution in hard copy. Many distance education programs require the student to attend classes or workshops on campus at some stage during the semester.

Question 82b: What is remote learning?

Answer: Distance education (sometimes known as learning by correspondence) is a broad term that describes education delivered to a student who is in a separate location to the source of the academic content. This method of education has been around since the 1800s and in comparison with online education, which is offered by Swinburne Online, it is often viewed by professionals as outdated. The mode of delivery traditionally involves sending the course materials and assessments back and forth between the student and learning institution in hard copy. Many distance education programs require the student to attend classes or workshops on campus at some stage during the semester.

Question 82c: What is e-learning?

Answer: Distance education (sometimes known as learning by correspondence) is a broad term that describes education delivered to a student who is in a separate location to the source of the academic content. This method of education has been around since the 1800s and in comparison with online education, which is offered by Swinburne Online, it is often viewed by professionals as outdated. The mode of delivery traditionally involves sending the course materials and assessments back and forth between the student and learning institution in hard copy. Many distance education programs require the student to attend classes or workshops on campus at some stage during the semester.

Question 82d: What is virtual education?

Answer: Distance education (sometimes known as learning by correspondence) is a broad term that describes education delivered to a student who is in a separate location to the source of the academic content. This method of education has been around since the 1800s and in comparison with online education, which is offered by Swinburne Online, it is often viewed by professionals as outdated. The mode of delivery traditionally involves sending the course materials and assessments back and forth between the student and learning institution in hard copy. Many distance education

programs require the student to attend classes or workshops on campus at some stage during the semester.

Question 83: What is an Honours Degree?

Answer: You can graduate with honours from a Bachelor Degree by undertaking an additional year of study, generally requiring you to complete a research project and submit a thesis, thereby positioning you for further research studies.

Question 83a: What is the difference between an Honours Degree and a regular Bachelor's Degree?

Answer: You can graduate with honours from a Bachelor Degree by undertaking an additional year of study, generally requiring you to complete a research project and submit a thesis, thereby positioning you for further research studies.

Question 83b: What are the benefits of pursuing an Honours Degree?

Answer: You can graduate with honours from a Bachelor Degree by undertaking an additional year of study, generally requiring you to complete a research project and submit a thesis, thereby positioning you for further research studies.

Question 83c: What are the admission requirements for an Honours Degree program?

Answer: You can graduate with honours from a Bachelor Degree by undertaking an additional year of study, generally requiring you to complete a research project and submit a thesis, thereby positioning you for further research studies.

Question 83d: What types of Honours Degrees are available in my field of study?

Answer: You can graduate with honours from a Bachelor Degree by undertaking an additional year of study, generally requiring you to complete a research project and submit a thesis, thereby positioning you for further research studies.

Question 84: What is an e-Learning Advisor and how can I contact them?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 84a: What support do e-Learning Advisors offer to online students and how can I access it?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 84b: Who are the e-Learning Advisors and how can they assist me with my online studies?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 84c: What services does the e-Learning Advisor team provide for Swinburne Online students, and how can I get in touch with them?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 84d: How can the e-Learning Advisors help me with my online learning experience and what are their contact details?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 85: What is a virtual classroom?

Answer: For students studying a degree, a virtual classroom is the online space where your learning will take place. You'll participate in interactive learning activities, access online reading, watch instructional videos and interact with your fellow students. Plus, class sizes are kept small so you get the personalised support you need.

Question 85a: What is an online classroom?

Answer: For students studying a degree, a virtual classroom is the online space where your learning will take place. You'll participate in interactive learning activities, access online reading, watch instructional videos and interact with your fellow students. Plus, class sizes are kept small so you get the personalised support you need.

Question 85b: What is a digital classroom?

Answer: For students studying a degree, a virtual classroom is the online space where your learning will take place. You'll participate in interactive learning activities, access online reading, watch instructional videos and interact with your fellow students. Plus, class sizes are kept small so you get the personalised support you need.

Question 85c: What is a web-based classroom?

Answer: For students studying a degree, a virtual classroom is the online space where your learning will take place. You'll participate in interactive learning activities, access online reading, watch instructional videos and interact with your fellow students. Plus, class sizes are kept small so you get the personalised support you need.

Question 85d: What is a remote classroom?

Answer: For students studying a degree, a virtual classroom is the online space where your learning will take place. You'll participate in interactive learning activities, access online reading, watch instructional videos and interact with your fellow students. Plus, class sizes are kept small so you get the personalised support you need.

Question 86: What is an e-Learning Advisor and how can I contact them?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach

specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 86: What services do e-Learning Advisors offer to online students?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 86b: How can an e-Learning Advisor help me with my online studies?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 86c: What are the qualifications and experience required to become an e-Learning Advisor?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 86d: What are the best ways to communicate with an e-Learning Advisor for support and guidance?

Answer: At Swinburne Online, each unit you study will be run by an online tutor with years of industry experience. The tutors are called e-Learning Advisors and they have been trained to teach specifically in an online environment. You can contact your e-Learning Advisor via the discussion boards in the student portal, or via email for a timely response.

Question 87: What is a specialisation?

Answer: A specialisation is a prescribed set of units within an area. Specialising in a second discipline, particularly one that complements your major, can complement your qualification and employment prospects. However, a specialisation is an area of interest not an accredited major.

Question 87a: What are the benefits of choosing a specialisation in my degree program?

Answer: A specialisation is a prescribed set of units within an area. Specialising in a second discipline, particularly one that complements your major, can complement your qualification and employment prospects. However, a specialisation is an area of interest not an accredited major.

Question 87b: How do I choose a specialisation that is right for me?

Answer: A specialisation is a prescribed set of units within an area. Specialising in a second discipline, particularly one that complements your major, can complement your qualification and employment prospects. However, a specialisation is an area of interest not an accredited major.

Question 87c: Can I switch my specialisation during my degree program?

Answer: A specialisation is a prescribed set of units within an area. Specialising in a second discipline, particularly one that complements your major, can complement your qualification and employment prospects. However, a specialisation is an area of interest not an accredited major.

Question 87d: What job opportunities are available for someone with a specialisation in a particular field?

Answer: A specialisation is a prescribed set of units within an area. Specialising in a second discipline, particularly one that complements your major, can complement your qualification and employment prospects. However, a specialisation is an area of interest not an accredited major.

Question 88: What is a pre-requisite?

Answer: A pre-requisite subject is a subject or sequence of subjects which must be completed before choosing a subsequent unit or course. For example, an undergraduate student cannot choose postgraduate units at Swinburne Online.

Question 88a: What is a course pre-requisite and why is it important?

Answer: A pre-requisite subject is a subject or sequence of subjects which must be completed before choosing a subsequent unit or course. For example, an undergraduate student cannot choose postgraduate units at Swinburne Online.

Question 88b: What is the difference between a pre-requisite and a co-requisite?

Answer: A pre-requisite subject is a subject or sequence of subjects which must be completed before choosing a subsequent unit or course. For example, an undergraduate student cannot choose postgraduate units at Swinburne Online.

Question 88c: How can I find out the pre-requisites for a particular course?

Answer: A pre-requisite subject is a subject or sequence of subjects which must be completed before choosing a subsequent unit or course. For example, an undergraduate student cannot choose postgraduate units at Swinburne Online.

Question 88d: Can I request to waive a pre-requisite for a course?

Answer: A pre-requisite subject is a subject or sequence of subjects which must be completed before choosing a subsequent unit or course. For example, an undergraduate student cannot choose postgraduate units at Swinburne Online.

Question 89: What is a PhD?

Answer: A Doctor of Philosophy, or PhD, is a globally recognised qualification that's considered the highest postgraduate achievement an individual can earn. To be awarded with a PhD, you must select a specific subject within your chosen field, carry out extensive and original research and submit a substantial thesis on your findings. Your thesis will be assessed by external examiners and will be judged on the quality of original research and contribution to the knowledge of the subject. You'll be required to commit to three or four years of full-time study (or part-time equivalent) and will be supervised by academic staff members. Once you graduate, you'll be eligible to teach in your chosen field at a university level or work in a specialised position.

Question 89a: What is a Doctor of Philosophy degree and how is it different from other doctoral degrees?

Answer: A Doctor of Philosophy, or PhD, is a globally recognised qualification that's considered the highest postgraduate achievement an individual can earn. To be awarded with a PhD, you must select a specific subject within your chosen field, carry out extensive and original research and submit a substantial thesis on your findings. Your thesis will be assessed by external examiners and will be judged on the quality of original research and contribution to the knowledge of the subject. You'll be required to commit to three or four years of full-time study (or part-time equivalent) and

will be supervised by academic staff members. Once you graduate, you'll be eligible to teach in your chosen field at a university level or work in a specialised position.

Question 89b: What is the purpose of a PhD program and what are its requirements?

Answer: A Doctor of Philosophy, or PhD, is a globally recognised qualification that's considered the highest postgraduate achievement an individual can earn. To be awarded with a PhD, you must select a specific subject within your chosen field, carry out extensive and original research and submit a substantial thesis on your findings. Your thesis will be assessed by external examiners and will be judged on the quality of original research and contribution to the knowledge of the subject. You'll be required to commit to three or four years of full-time study (or part-time equivalent) and will be supervised by academic staff members. Once you graduate, you'll be eligible to teach in your chosen field at a university level or work in a specialised position.

Question 89c: What is the process for earning a PhD degree and how long does it typically take?

Answer: A Doctor of Philosophy, or PhD, is a globally recognised qualification that's considered the highest postgraduate achievement an individual can earn. To be awarded with a PhD, you must select a specific subject within your chosen field, carry out extensive and original research and submit a substantial thesis on your findings. Your thesis will be assessed by external examiners and will be judged on the quality of original research and contribution to the knowledge of the subject. You'll be required to commit to three or four years of full-time study (or part-time equivalent) and will be supervised by academic staff members. Once you graduate, you'll be eligible to teach in your chosen field at a university level or work in a specialised position.

Question 89d: What kind of research is involved in a PhD program and how is it different from other graduate programs?

Answer: A Doctor of Philosophy, or PhD, is a globally recognised qualification that's considered the highest postgraduate achievement an individual can earn. To be awarded with a PhD, you must select a specific subject within your chosen field, carry out extensive and original research and submit a substantial thesis on your findings. Your thesis will be assessed by external examiners and will be judged on the quality of original research and contribution to the knowledge of the subject. You'll be required to commit to three or four years of full-time study (or part-time equivalent) and will be supervised by academic staff members. Once you graduate, you'll be eligible to teach in your chosen field at a university level or work in a specialised position.

Question 90: What is a Masters Degree?

Answer: A Masters Degree allows you to become a specialist in your chosen field. Typically students are required you to demonstrate a high-order overview of a specific field of study or area of professional practice. When you graduate, you'll possess advanced knowledge of a specialised body of theoretical and applied topics, high order skills in analysis, critical evaluation, or professional application; and the ability to solve complex problems and think rigorously and independently. You will generally be required to undertake academic coursework and in some cases, preparation for professional practice.

Question 90a: What is a postgraduate degree?

Answer: A Masters Degree allows you to become a specialist in your chosen field. Typically students are required you to demonstrate a high-order overview of a specific field of study or area of professional practice. When you graduate, you'll possess advanced knowledge of a specialised body of theoretical and applied topics, high order skills in analysis, critical evaluation, or professional application; and the ability to solve complex problems and think rigorously and independently. You will generally be required to undertake academic coursework and in some cases, preparation for professional practice.

Question 90b: What is the difference between a Master's degree and a Bachelor's degree?

Answer: A Masters Degree allows you to become a specialist in your chosen field. Typically students are required you to demonstrate a high-order overview of a specific field of study or area of professional practice. When you graduate, you'll possess advanced knowledge of a specialised body of theoretical and applied topics, high order skills in analysis, critical evaluation, or professional application; and the ability to solve complex problems and think rigorously and independently. You will generally be required to undertake academic coursework and in some cases, preparation for professional practice.

Question 90c: What are the benefits of obtaining a Masters Degree?

Answer: A Masters Degree allows you to become a specialist in your chosen field. Typically students are required you to demonstrate a high-order overview of a specific field of study or area of professional practice. When you graduate, you'll possess advanced knowledge of a specialised body of theoretical and applied topics, high order skills in analysis, critical evaluation, or professional application; and the ability to solve complex problems and think rigorously and independently. You will generally be required to undertake academic coursework and in some cases, preparation for professional practice.

Question 90d: What is a postgraduate academic degree that involves specialized study in a particular field or subject?

Answer: A Masters Degree allows you to become a specialist in your chosen field. Typically students are required to demonstrate a high-order overview of a specific field of study or area of professional practice. When you graduate, you'll possess advanced knowledge of a specialised body of theoretical and applied topics, high order skills in analysis, critical evaluation, or professional application; and the ability to solve complex problems and think rigorously and independently. You will generally be required to undertake academic coursework and in some cases, preparation for professional practice.

Question 91: What is a major unit?

Answer: A major unit refers to what 'specialisation' you would like to focus on within your degree. For example, as a Bachelor of Business Administration student, you may wish to major in a specialisation area such as marketing. For current students, more information can be found in the Study Resources section of our Student Portal.

Question 91a: Can you explain what is meant by the term "major unit"?

Answer: A major unit refers to what 'specialisation' you would like to focus on within your degree. For example, as a Bachelor of Business Administration student, you may wish to major in a specialisation area such as marketing. For current students, more information can be found in the Study Resources section of our Student Portal.

Question 91b: How many major units are typically required for an undergraduate degree?

Answer: A major unit refers to what 'specialisation' you would like to focus on within your degree. For example, as a Bachelor of Business Administration student, you may wish to major in a specialisation area such as marketing. For current students, more information can be found in the Study Resources section of our Student Portal.

Question 91c: What is the purpose of a major unit?

Answer: A major unit refers to what 'specialisation' you would like to focus on within your degree. For example, as a Bachelor of Business Administration student, you may wish to major in a specialisation area such as marketing. For current students, more information can be found in the Study Resources section of our Student Portal.

Question 91d: What does a major unit mean?

Answer: A major unit refers to what 'specialisation' you would like to focus on within your degree. For example, as a Bachelor of Business Administration student, you may wish to major in a specialisation area such as marketing. For current students, more information can be found in the Study Resources section of our Student Portal.

Question 92: What is a Graduate Diploma?

Answer: A Graduate Diploma will allow you to complete specialisation studies in a smaller amount of time and at a reduced cost of a Masters degree. Most of the time you will also have the option of transferring to a masters degree in the same topic. Once you complete your graduate diploma, you'll have advanced knowledge and skills for professional, highly skilled work or further learning.

Question 92a: Can you provide me with a definition of a Graduate Diploma?

Answer: A Graduate Diploma will allow you to complete specialisation studies in a smaller amount of time and at a reduced cost of a Masters degree. Most of the time you will also have the option of transferring to a masters degree in the same topic. Once you complete your graduate diploma, you'll have advanced knowledge and skills for professional, highly skilled work or further learning.

Question 92b: How would you describe a Graduate Diploma?

Answer: A Graduate Diploma will allow you to complete specialisation studies in a smaller amount of time and at a reduced cost of a Masters degree. Most of the time you will also have the option of transferring to a masters degree in the same topic. Once you complete your graduate diploma, you'll have advanced knowledge and skills for professional, highly skilled work or further learning.

Question 92c: What exactly does a Graduate Diploma entail?

Answer: A Graduate Diploma will allow you to complete specialisation studies in a smaller amount of time and at a reduced cost of a Masters degree. Most of the time you will also have the option of transferring to a masters degree in the same topic. Once you complete your graduate diploma, you'll have advanced knowledge and skills for professional, highly skilled work or further learning.

Question 92d: Could you explain the concept of a Graduate Diploma?

Answer: A Graduate Diploma will allow you to complete specialisation studies in a smaller amount of time and at a reduced cost of a Masters degree. Most of the time you will also have the option of

transferring to a masters degree in the same topic. Once you complete your graduate diploma, you'll have advanced knowledge and skills for professional, highly skilled work or further learning.

Question 93: What is a Graduate Certificate?

Answer: Completing a Graduate Certificate will help you upgrade your qualifications or give you advanced practical skills required in specialist industries. If you haven't earned a bachelor degree, many programs may allow you entry provided you have sufficient relevant work experience in your chosen field. Graduate Certificates generally require a commitment of six months full-time study, or an equivalent part-time commitment.

Question 93a: Can you explain the meaning of a Graduate Certificate?

Answer: Completing a Graduate Certificate will help you upgrade your qualifications or give you advanced practical skills required in specialist industries. If you haven't earned a bachelor degree, many programs may allow you entry provided you have sufficient relevant work experience in your chosen field. Graduate Certificates generally require a commitment of six months full-time study, or an equivalent part-time commitment.

Question 93b: What does obtaining a Graduate Certificate involve?

Answer: Completing a Graduate Certificate will help you upgrade your qualifications or give you advanced practical skills required in specialist industries. If you haven't earned a bachelor degree, many programs may allow you entry provided you have sufficient relevant work experience in your chosen field. Graduate Certificates generally require a commitment of six months full-time study, or an equivalent part-time commitment.

Question 93c: How would you define a Graduate Certificate?

Answer: Completing a Graduate Certificate will help you upgrade your qualifications or give you advanced practical skills required in specialist industries. If you haven't earned a bachelor degree, many programs may allow you entry provided you have sufficient relevant work experience in your chosen field. Graduate Certificates generally require a commitment of six months full-time study, or an equivalent part-time commitment.

Question 93d: Could you provide me with a brief overview of what a Graduate Certificate is?

Answer: Completing a Graduate Certificate will help you upgrade your qualifications or give you advanced practical skills required in specialist industries. If you haven't earned a bachelor degree, many programs may allow you entry provided you have sufficient relevant work experience in your chosen field. Graduate Certificates generally require a commitment of six months full-time study, or an equivalent part-time commitment.

Question 94: What is a Grade Point Average (GPA)?

Answer: A GPA is a calculation for higher education results. There are two GPA scales commonly used in Australia and overseas, the four-point and the seven-point scale. These scales differ in the grade points that they allocate to each grade but the method of calculation is the same. Swinburne uses a four-point method. To find out how to calculate a GPA visit our [Grade Point Average](#) page.

Question 94a: How would you define Grade Point Average (GPA)?

Answer: A GPA is a calculation for higher education results. There are two GPA scales commonly used in Australia and overseas, the four-point and the seven-point scale. These scales differ in the grade points that they allocate to each grade but the method of calculation is the same. Swinburne uses a four-point method. To find out how to calculate a GPA visit our [Grade Point Average](#) page.

Question 94b: Can you explain what a Grade Point Average (GPA) is?

Answer: A GPA is a calculation for higher education results. There are two GPA scales commonly used in Australia and overseas, the four-point and the seven-point scale. These scales differ in the grade points that they allocate to each grade but the method of calculation is the same. Swinburne uses a four-point method. To find out how to calculate a GPA visit our [Grade Point Average](#) page.

Question 94c: What does the term Grade Point Average (GPA) refer to?

Answer: A GPA is a calculation for higher education results. There are two GPA scales commonly used in Australia and overseas, the four-point and the seven-point scale. These scales differ in the grade points that they allocate to each grade but the method of calculation is the same. Swinburne uses a four-point method. Question 94d: Could you give me a brief explanation of what Grade Point Average (GPA) means?

Answer: A GPA is a calculation for higher education results. There are two GPA scales commonly used in Australia and overseas, the four-point and the seven-point scale. These scales differ in the

grade points that they allocate to each grade but the method of calculation is the same. Swinburne uses a four-point method. To find out how to calculate a GPA visit our [Grade Point Average](#) page.

Question 95: What is a good option for upskilling during this time?

Answer: The best study option for you will depend on your current level of education, as well as the amount of available time you have to commit. For those looking to step up and earn a promotion or just upskill in general, a short course might be the best choice. A Graduate Certificate is also a good option for anyone looking to be educated over a short period of time. If you are unsure about what level of study or time commitment is best for you, utilise our [Study Time Calculator](#) or view our [range of courses](#) today.

Question 95a: What are some effective ways to upskill in the current climate?

Answer: The best study option for you will depend on your current level of education, as well as the amount of available time you have to commit. For those looking to step up and earn a promotion or just upskill in general, a short course might be the best choice. A Graduate Certificate is also a good option for anyone looking to be educated over a short period of time. If you are unsure about what level of study or time commitment is best for you, utilise our [Study Time Calculator](#) or view our [range of courses](#) today.

Question 95b: Can you suggest some worthwhile options for upskilling right now?

Answer: The best study option for you will depend on your current level of education, as well as the amount of available time you have to commit. For those looking to step up and earn a promotion or just upskill in general, a short course might be the best choice. A Graduate Certificate is also a good option for anyone looking to be educated over a short period of time. If you are unsure about what level of study or time commitment is best for you, utilise our [Study Time Calculator](#) or view our [range of courses](#) today.

Question 95c: How can one best go about acquiring new skills at this time?

Answer: The best study option for you will depend on your current level of education, as well as the amount of available time you have to commit. For those looking to step up and earn a promotion or just upskill in general, a short course might be the best choice. A Graduate Certificate is also a good option for anyone looking to be educated over a short period of time. If you are unsure about what level of study or time commitment is best for you, utilise our [Study Time Calculator](#) or view our [range of courses](#) today.

Question 95d: What are some recommended strategies for professional development during these times?

Answer: The best study option for you will depend on your current level of education, as well as the amount of available time you have to commit. For those looking to step up and earn a promotion or just upskill in general, a short course might be the best choice. A Graduate Certificate is also a good option for anyone looking to be educated over a short period of time. If you are unsure about what level of study or time commitment is best for you, utilise our Study Time Calculator or view our range of courses today.

Question 96: What is a Double Degree?

Answer: A double degree is a university degree where you study two single degrees at the same time, giving you the option of specialising in two different fields. To be eligible to enrol in a double degree, you must meet all the entry requirements of both degree programs. Even though you'll be doubling your opportunities and giving yourself more career flexibility once you graduate, a double degree generally doesn't take double the time to complete. In most instances, you'll benefit from cross-crediting elective units, which will reduce your study costs and time compared to if you were studying separate bachelor degrees at different times. Usually a double degree will take four years full time study or part-time equivalent.

Question 96a: Can you explain the concept of a Double Degree?

Answer: A double degree is a university degree where you study two single degrees at the same time, giving you the option of specialising in two different fields. To be eligible to enrol in a double degree, you must meet all the entry requirements of both degree programs. Even though you'll be doubling your opportunities and giving yourself more career flexibility once you graduate, a double degree generally doesn't take double the time to complete. In most instances, you'll benefit from cross-crediting elective units, which will reduce your study costs and time compared to if you were studying separate bachelor degrees at different times. Usually a double degree will take four years full time study or part-time equivalent.

Question 96b: What does the term Double Degree mean?

Answer: A double degree is a university degree where you study two single degrees at the same time, giving you the option of specialising in two different fields. To be eligible to enrol in a double degree, you must meet all the entry requirements of both degree programs. Even though you'll be doubling your opportunities and giving yourself more career flexibility once you graduate, a double degree generally doesn't take double the time to complete. In most instances, you'll benefit from cross-crediting elective units, which will reduce your study costs and time compared to if you were studying separate bachelor degrees at different times. Usually a double degree will take four years full time study or part-time equivalent.

Question 96c: How would you define a Double Degree?

Answer: A double degree is a university degree where you study two single degrees at the same time, giving you the option of specialising in two different fields. To be eligible to enrol in a double degree, you must meet all the entry requirements of both degree programs. Even though you'll be doubling your opportunities and giving yourself more career flexibility once you graduate, a double degree generally doesn't take double the time to complete. In most instances, you'll benefit from cross-crediting elective units, which will reduce your study costs and time compared to if you were studying separate bachelor degrees at different times. Usually a double degree will take four years full time study or part-time equivalent.

Question 96d: Could you give me a brief overview of what a Double Degree is?

Answer: A double degree is a university degree where you study two single degrees at the same time, giving you the option of specialising in two different fields. To be eligible to enrol in a double degree, you must meet all the entry requirements of both degree programs. Question 97d: Could you provide me with a brief overview of what a Diploma entails?

Answer: Completing a Diploma or Advanced Diploma certificate will give you practical skills for work as well as the opportunity to progress to another qualification. At Swinburne, you'll be taught by experienced teachers and have access to equipment used in industry to help prepare you for your future.

Question 98: What is a Commonwealth Supported Place?

Answer: The Australian Government subsidises an Australian citizen student's education by giving them a Commonwealth supported place. By doing this they are paying part of the course fees directly to the university and the student pays the remainder. If you are a domestic undergraduate student, you are eligible for a Commonwealth supported place.

Question 98a: How would you define a Commonwealth Supported Place?

Answer: The Australian Government subsidises an Australian citizen student's education by giving them a Commonwealth supported place. By doing this they are paying part of the course fees directly to the university and the student pays the remainder. If you are a domestic undergraduate student, you are eligible for a Commonwealth supported place.

Question 98b: Can you explain what a Commonwealth Supported Place is?

Answer: The Australian Government subsidises an Australian citizen student's education by giving them a Commonwealth supported place. By doing this they are paying part of the course fees

directly to the university and the student pays the remainder. If you are a domestic undergraduate student, you are eligible for a Commonwealth supported place.

Question 98c: What does the term Commonwealth Supported Place refer to?

Answer: The Australian Government subsidises an Australian citizen student's education by giving them a Commonwealth supported place. By doing this they are paying part of the course fees directly to the university and the student pays the remainder. If you are a domestic undergraduate student, you are eligible for a Commonwealth supported place.

Question 98d: Could you provide me with a brief overview of what a Commonwealth Supported Place entails?

Answer: The Australian Government subsidises an Australian citizen student's education by giving them a Commonwealth supported place. By doing this they are paying part of the course fees directly to the university and the student pays the remainder. If you are a domestic undergraduate student, you are eligible for a Commonwealth supported place.

Question 99: What is a Certificate?

Answer: Certificates are the most basic qualification available to secondary school students and beyond. Offered by TAFEs, Community Education Centres and Registered Training Providers, Certificates I, II, III and IV will prepare you for employment or further education and training. Certificate I: Will give you skills when beginning a profession or help you gain community involvement. Certificate II: You'll build on knowledge and skills to work in a defined context and undertake further learning. Certificate III: You'll learn more in-depth theoretical and practical skills for work or further learning. Certificate IV: You'll learn theoretical and practical skills for specialised work or further learning.

Question 99a: Can you explain the meaning of a Certificate?

Answer: Certificates are the most basic qualification available to secondary school students and beyond. Offered by TAFEs, Community Education Centres and Registered Training Providers, Certificates I, II, III and IV will prepare you for employment or further education and training. Question 100: What is a Bachelor Degree?

Answer: Bachelor degrees are offered by universities and are presented to you when you complete an undergraduate course of study. Depending on the field of study, the duration of the degree can range from three to five years of full-time study (or part-time equivalent). Most bachelor degrees are recognised worldwide. A Bachelor degree teaches you skills such as research and analytical

thinking and is recognised as a higher qualification to diplomas or certificates. Where a Diploma will give you the skills you need for your job, a Bachelor will set you up for your career.

Question 100a: Can you explain the concept of a Bachelor Degree?

Answer: Bachelor degrees are offered by universities and are presented to you when you complete an undergraduate course of study. Depending on the field of study, the duration of the degree can range from three to five years of full-time study (or part-time equivalent). Most bachelor degrees are recognised worldwide. A Bachelor degree teaches you skills such as research and analytical thinking and is recognised as a higher qualification to diplomas or certificates. Where a Diploma will give you the skills you need for your job, a Bachelor will set you up for your career.

Question 100b: How would you define a Bachelor Degree?

Answer: Bachelor degrees are offered by universities and are presented to you when you complete an undergraduate course of study. Depending on the field of study, the duration of the degree can range from three to five years of full-time study (or part-time equivalent). Most bachelor degrees are recognised worldwide. A Bachelor degree teaches you skills such as research and analytical thinking and is recognised as a higher qualification to diplomas or certificates. Where a Diploma will give you the skills you need for your job, a Bachelor will set you up for your career.

Question 100c: What does the term Bachelor Degree refer to?

Answer: Bachelor degrees are offered by universities and are presented to you when you complete an undergraduate course of study. Depending on the field of study, the duration of the degree can range from three to five years of full-time study (or part-time equivalent). Most bachelor degrees are recognised worldwide. A Bachelor degree teaches you skills such as research and analytical thinking and is recognised as a higher qualification to diplomas or certificates. Where a Diploma will give you the skills you need for your job, a Bachelor will set you up for your career.

Question 100d: Could you provide me with a brief overview of what a Bachelor Degree is?

Answer: Bachelor degrees are offered by universities and are presented to you when you complete an undergraduate course of study. Depending on the field of study, the duration of the degree can range from three to five years of full-time study (or part-time equivalent). Most bachelor degrees are recognised worldwide. A Bachelor degree teaches you skills such as research and analytical thinking and is recognised as a higher qualification to diplomas or certificates. Where a Diploma will give you the skills you need for your job, a Bachelor will set you up for your career.

Question 101: What happens if I don't pay my fees on time?

Answer: It is your responsibility to ensure that your enrolment is correct prior to the due date. If you do not pay your fees by the due date you may be cancelled from your degree. If you withdraw from a unit after the due date you will receive a fail result on your student record. For TAFE students, your course won't begin until you've paid your fees, or submitted your VET FEE HELP form.

Question 101a: What are the consequences of not paying my fees on time?

Answer: It is your responsibility to ensure that your enrolment is correct prior to the due date. If you do not pay your fees by the due date you may be cancelled from your degree. If you withdraw from a unit after the due date you will receive a fail result on your student record. For TAFE students, your course won't begin until you've paid your fees, or submitted your VET FEE HELP form.

Question 101b: How does delaying payment of fees affect me?

Answer: It is your responsibility to ensure that your enrolment is correct prior to the due date. If you do not pay your fees by the due date you may be cancelled from your degree. If you withdraw from a unit after the due date you will receive a fail result on your student record. For TAFE students, your course won't begin until you've paid your fees, or submitted your VET FEE HELP form.

Question 101c: What actions are taken if fees are not paid by the due date?

Answer: It is your responsibility to ensure that your enrolment is correct prior to the due date. If you do not pay your fees by the due date you may be cancelled from your degree. If you withdraw from a unit after the due date you will receive a fail result on your student record. For TAFE students, your course won't begin until you've paid your fees, or submitted your VET FEE HELP form.

Question 101d: Could you explain the potential penalties for late payment of fees?

Answer: It is your responsibility to ensure that your enrolment is correct prior to the due date. If you do not pay your fees by the due date you may be cancelled from your degree. If you withdraw from a unit after the due date you will receive a fail result on your student record. For TAFE students, your course won't begin until you've paid your fees, or submitted your VET FEE HELP form.

Question 102: What devices will I need to complete my qualification?

Answer: These are the minimum technical requirements to study with Swinburne Online:

- Laptop or desktop computer
- Speakers or headphones
- Web camera
- Microphone
- For Mac: OSX version 10.7
- For PC: Windows 7
- Broadband internet connection with at least 30 GB data allowance per month (mobile dongles are not recommended).

Question 102a: Can you provide me with a list of the devices required to complete my qualification?

Answer: These are the minimum technical requirements to study with Swinburne Online:

- Laptop or desktop computer
- Speakers or headphones
- Web camera
- Microphone
- For Mac: OSX version 10.7
- For PC: Windows 7
- Broadband internet connection with at least 30 GB data allowance per month (mobile dongles are not recommended).

Question 102b: What equipment is necessary to complete my qualification?

Answer: These are the minimum technical requirements to study with Swinburne Online:

- Laptop or desktop computer
- Speakers or headphones
- Web camera
- Microphone
- For Mac: OSX version 10.7

- For PC: Windows 7

- Broadband internet connection with at least 30 GB data allowance per month (mobile dongles are not recommended).

Question 102c: Which devices will be needed for me to complete my course?

Answer: These are the minimum technical requirements to study with Swinburne Online:

- Laptop or desktop computer

- Speakers or headphones

- Web camera

- Microphone

- For Mac: OSX version 10.7

- For PC: Windows 7

- Broadband internet connection with at least 30 GB data allowance per month (mobile dongles are not recommended).

Question 102d: Could you explain what tools and devices are required for me to finish my qualification?

Answer: These are the minimum technical requirements to study with Swinburne Online:

- Laptop or desktop computer

- Speakers or headphones

- Web camera

- Microphone

- For Mac: OSX version 10.7

- For PC: Windows 7

- Broadband internet connection with at least 30 GB data allowance per month (mobile dongles are not recommended).

Question 103: What are the main differences between online, on-campus and distance education?

Answer: At Swinburne Online, our online education method just requires students to have access to a broadband connection! Students can log in to their online environment to access their course, whenever and wherever it is convenient for them. Traditional on-campus education requires students to attend lectures and tutorials at a venue at a given time. Distance education often requires a number of different communication modes and can sometimes involve the sending of printed material to a student's residence.

Question 103a: Can you explain the key distinctions between online, on-campus, and distance education?

Answer: At Swinburne Online, our online education method just requires students to have access to a broadband connection! Students can log in to their online environment to access their course, whenever and wherever it is convenient for them. Traditional on-campus education requires students to attend lectures and tutorials at a venue at a given time. Distance education often requires a number of different communication modes and can sometimes involve the sending of printed material to a student's residence.

Question 103b: What are the main differences in delivery methods between online, on-campus, and distance education?

Answer: At Swinburne Online, our online education method just requires students to have access to a broadband connection! Students can log in to their online environment to access their course, whenever and wherever it is convenient for them. Traditional on-campus education requires students to attend lectures and tutorials at a venue at a given time. Distance education often requires a number of different communication modes and can sometimes involve the sending of printed material to a student's residence.

Question 103c: How do online, on-campus, and distance education differ from one another?

Answer: At Swinburne Online, our online education method just requires students to have access to a broadband connection! Students can log in to their online environment to access their course, whenever and wherever it is convenient for them. Traditional on-campus education requires students to attend lectures and tutorials at a venue at a given time. Distance education often requires a number of different communication modes and can sometimes involve the sending of printed material to a student's residence.

Question 103d: Could you provide me with a comparison of the features of online, on-campus, and distance education?

Answer: At Swinburne Online, our online education method just requires students to have access to a broadband connection! Students can log in to their online environment to access their course, whenever and wherever it is convenient for them. Traditional on-campus education requires students to attend lectures and tutorials at a venue at a given time. Distance education often requires a number of different communication modes and can sometimes involve the sending of printed material to a student's residence.

Question 104: What are the entry requirements for the Diploma of Nursing?

Answer: To study a diploma with Swinburne Online, you need to meet the specific entry criteria for your course. Please ensure you meet the entry criteria for the Diploma of Nursing before you apply.

Question 104a: Can you explain the prerequisites for the Diploma of Nursing program?

Answer: To study a diploma with Swinburne Online, you need to meet the specific entry criteria for your course. Please ensure you meet the entry criteria for the Diploma of Nursing before you apply.

.

Question 104b: What are the admission criteria for the Diploma of Nursing course?

Answer: To study a diploma with Swinburne Online, you need to meet the specific entry criteria for your course. Please ensure you meet the entry criteria for the Diploma of Nursing before you apply.

Question 104c: How does one qualify for acceptance into the Diploma of Nursing program?

Answer: To study a diploma with Swinburne Online, you need to meet the specific entry criteria for your course. Please ensure you meet the entry criteria for the Diploma of Nursing before you apply.

Question 104d: Could you provide me with a list of the entry requirements for the Diploma of Nursing?

Answer: To study a diploma with Swinburne Online, you need to meet the specific entry criteria for your course. Please ensure you meet the entry criteria for the Diploma of Nursing before you apply.

Question 105: What are the entry requirements for TAFE Business courses?

Answer: To study a diploma with Swinburne Online, you need to meet the specific entry criteria for your course. Question 106: What are the benefits of acquiring a Tableau certification?

Answer: Earning an industry certification is a powerful way to demonstrate and validate your competency to the market. Tableau certified professionals enjoy advanced career prospects, higher salaries, improved job security, greater confidence and proficiency in the workplace, and skill validation. Tableau certified professionals are also invited to enter the Tableau directory – a platform used by companies and prospective employers to find Tableau-accredited talent.

Question 106a: How can obtaining a Tableau certification be advantageous?

Answer: Earning an industry certification is a powerful way to demonstrate and validate your competency to the market. Tableau certified professionals enjoy advanced career prospects, higher salaries, improved job security, greater confidence and proficiency in the workplace, and skill validation. Tableau certified professionals are also invited to enter the Tableau directory – a platform used by companies and prospective employers to find Tableau-accredited talent.

Question 106b: What are some advantages of getting certified in Tableau?

Answer: Earning an industry certification is a powerful way to demonstrate and validate your competency to the market. Tableau certified professionals enjoy advanced career prospects, higher salaries, improved job security, greater confidence and proficiency in the workplace, and skill validation. Tableau certified professionals are also invited to enter the Tableau directory – a platform used by companies and prospective employers to find Tableau-accredited talent.

Question 106c: What benefits can one expect from acquiring a Tableau certification?

Answer: Earning an industry certification is a powerful way to demonstrate and validate your competency to the market. Tableau certified professionals enjoy advanced career prospects, higher salaries, improved job security, greater confidence and proficiency in the workplace, and skill validation. Tableau certified professionals are also invited to enter the Tableau directory – a platform used by companies and prospective employers to find Tableau-accredited talent.

Question 106d: Could you provide me with an overview of the advantages of holding a Tableau certification?

Answer: Earning an industry certification is a powerful way to demonstrate and validate your competency to the market. Tableau certified professionals enjoy advanced career prospects, higher salaries, improved job security, greater confidence and proficiency in the workplace, and skill validation. Tableau certified professionals are also invited to enter the Tableau directory – a platform used by companies and prospective employers to find Tableau-accredited talent.

Question 107: What are placements?

Answer: When you study an education degree you complete practicum units that include theory and professional experience, also called a placement. Your placement will provide you with a real-life teaching experience at an early learning centre or primary school. This will give you the chance to apply the skills you've learnt online, build your confidence in the classroom, and gain invaluable industry experience.

Question 107a: Can you explain the concept of placements?

Answer: When you study an education degree you complete practicum units that include theory and professional experience, also called a placement. Your placement will provide you with a real-life teaching experience at an early learning centre or primary school. This will give you the chance to apply the skills you've learnt online, build your confidence in the classroom, and gain invaluable industry experience.

Question 107b: How would you define the term "placements"?

Answer: When you study an education degree you complete practicum units that include theory and professional experience, also called a placement. Your placement will provide you with a real-life teaching experience at an early learning centre or primary school. This will give you the chance to apply the skills you've learnt online, build your confidence in the classroom, and gain invaluable industry experience.

Question 107c: What does the term "placements" refer to?

Answer: When you study an education degree you complete practicum units that include theory and professional experience, also called a placement. Your placement will provide you with a real-life teaching experience at an early learning centre or primary school. This will give you the chance to apply the skills you've learnt online, build your confidence in the classroom, and gain invaluable industry experience.

Question 107d: Could you provide me with a brief overview of what "placements" entail?

Answer: When you study an education degree you complete practicum units that include theory and professional experience, also called a placement. Your placement will provide you with a real-life teaching experience at an early learning centre or primary school. This will give you the chance to apply the skills you've learnt online, build your confidence in the classroom, and gain invaluable industry experience.

Question 108: What are exemptions?

Answer: An exemption is a credit you are given by Swinburne Online for previous study or prior learning at another institute. If you are eligible for exemptions, it can mean that you can fast-track your degree or diploma and graduate sooner. To find out if you are eligible for any exemptions, speak to one of our Course Consultants.

Question 108a: Can you explain the concept of exemptions?

Answer: An exemption is a credit you are given by Swinburne Online for previous study or prior learning at another institute. If you are eligible for exemptions, it can mean that you can fast-track your degree or diploma and graduate sooner. To find out if you are eligible for any exemptions, speak to one of our Course Consultants.

Question 108b: How would you define the term "exemptions"?

Answer: An exemption is a credit you are given by Swinburne Online for previous study or prior learning at another institute. If you are eligible for exemptions, it can mean that you can fast-track your degree or diploma and graduate sooner. To find out if you are eligible for any exemptions, speak to one of our Course Consultants.

Question 108c: What does the term "exemptions" refer to?

Answer: An exemption is a credit you are given by Swinburne Online for previous study or prior learning at another institute. If you are eligible for exemptions, it can mean that you can fast-track your degree or diploma and graduate sooner. To find out if you are eligible for any exemptions, speak to one of our Course Consultants.

Question 108d: Could you provide me with a brief overview of what "exemptions" entail?

Answer: An exemption is a credit you are given by Swinburne Online for previous study or prior learning at another institute. If you are eligible for exemptions, it can mean that you can fast-track your degree or diploma and graduate sooner. To find out if you are eligible for any exemptions, speak to one of our Course Consultants.

Question 109: What are electives and why do I need to study them?

Answer: Electives are free choice units that must be completed to meet the requirements for most of our degrees. They are included in many of our courses to give students flexibility, in terms of how they complete their degree. Their inclusion in our courses allows students to explore other subjects of interest that may not be included in the core structure of their chosen degree.

Question 109a: Can you explain what electives are and why they are a required component of a program of study?

Answer: Electives are free choice units that must be completed to meet the requirements for most of our degrees. They are included in many of our courses to give students flexibility, in terms of how they complete their degree. Their inclusion in our courses allows students to explore other subjects of interest that may not be included in the core structure of their chosen degree.

Question 109b: How would you define the term "electives" and their purpose in a program?

Answer: Electives are free choice units that must be completed to meet the requirements for most of our degrees. They are included in many of our courses to give students flexibility, in terms of how they complete their degree. Answer: Yes, students of Swinburne Online graduate with the exact same qualification as a student at Swinburne University of Technology. Not only does your graduation certificate look exactly the same, your coursework will cover all the same topics – we just transpose the information and assessment tasks so that they are perfectly suited to an online classroom.

Question 117c: Do employers recognize the value of online qualifications?

Answer: Yes, students of Swinburne Online graduate with the exact same qualification as a student at Swinburne University of Technology. Not only does your graduation certificate look exactly the same, your coursework will cover all the same topics – we just transpose the information and assessment tasks so that they are perfectly suited to an online classroom.

Question 117d: Is an online educational program as credible as a traditional on-campus program?

Answer: Yes, students of Swinburne Online graduate with the exact same qualification as a student at Swinburne University of Technology. Not only does your graduation certificate look exactly the same, your coursework will cover all the same topics – we just transpose the information and assessment tasks so that they are perfectly suited to an online classroom.

Question 118: If I have just completed Year 12, can I apply to enrol in your March intake (Teaching Period 1)?

Answer: No, recent Year 12 students must apply through VTAC for Swinburne courses for the March intake. However you may apply for Swinburne Online's July or November intakes.

Question 118a: Is it possible for a Year 12 graduate to apply for enrollment in the March intake (Teaching Period 1)?

Answer: No, recent Year 12 students must apply through VTAC for Swinburne courses for the March intake. However you may apply for Swinburne Online's July or November intakes.

Question 118b: Can individuals who have recently completed Year 12 apply for admission to the March intake (Teaching Period 1)?

Answer: No, recent Year 12 students must apply through VTAC for Swinburne courses for the March intake. However you may apply for Swinburne Online's July or November intakes.

Question 118c: Is it permissible for students who have completed Year 12 to seek enrollment in the March intake (Teaching Period 1)?

Answer: No, recent Year 12 students must apply through VTAC for Swinburne courses for the March intake. However you may apply for Swinburne Online's July or November intakes.

Question 118d: Are Year 12 graduates eligible to apply for enrollment in the March intake (Teaching Period 1)?

Answer: No, recent Year 12 students must apply through VTAC for Swinburne courses for the March intake. However you may apply for Swinburne Online's July or November intakes.

Question 119: If I have a VSL can I withdraw from my course?

Answer: Yes. If you decide to discontinue your studies, you will need to formally withdraw from your course. To formally withdraw, please complete the self-service request form including:

- Your full name and student number

- The course you're enrolled in
- Your intent to withdraw
- Whether you paid your fees upfront or applied for VET FEE HELP or a VET Student Loan.

Withdrawing before Census: To avoid incurring a VET FEE HELP or VET Student Loan debt (or to receive a full refund if you pay for your fees upfront) you must send your email to Swinburne Online on or before your Census date. We will inform you of your Census dates when you enrol. If you paid your fees upfront, Swinburne Online will send you a refund application form. Once this is processed you will receive a full refund within 10 business days. Withdrawing after Census: If you withdraw from your course after your Census date, you will be automatically charged for the units you enrolled in. You won't be able to receive a refund. If you elected for VET FEE HELP or VET Student Loan, you will incur the debt.

Question 119a: Is it possible to withdraw from a course if I have a VSL (VET Student Loan)?

Answer: Yes. If you decide to discontinue your studies, you will need to formally withdraw from your course. To formally withdraw, please complete the self-service request form including:

- Your full name and student number
- The course you're enrolled in
- Your intent to withdraw
- Whether you paid your fees upfront or applied for VET FEE HELP or a VET Student Loan.

Withdrawing before Census: To avoid incurring a VET FEE HELP or VET Student Loan debt (or to receive a full refund if you pay for your fees upfront) you must send your email to Swinburne Online on or before your Census date. We will inform you of your Census dates when you enrol. If you paid your fees upfront, Swinburne Online will send you a refund application form. Once this is processed you will receive a full refund within 10 business days. Withdrawing after Census: If you withdraw from your course after your Census date, you will be automatically charged for the units you enrolled in. You won't be able to receive a refund. If you elected for VET FEE HELP or VET Student Loan, you will incur the debt.

Question 119b: Are students with a VSL (VET Student Loan) permitted to withdraw from their course?

Answer: Yes. If you decide to discontinue your studies, you will need to formally withdraw from your course. To formally withdraw, please complete the self-service request form including:

- Your full name and student number
- The course you're enrolled in

- Your intent to withdraw
- Whether you paid your fees upfront or applied for VET FEE HELP or a VET Student Loan.

Withdrawing before Census: To avoid incurring a VET FEE HELP or VET Student Loan debt (or to receive a full refund if you pay for your fees upfront) you must send your email to Swinburne Online on or before your Census date. Exams are taken at specified exam centre venues in capital cities around Australia. When students reside more than 100km from an exam centre, or have any condition that would prevent them from taking exams at

exam centres, they can sit an online exam. All our international students will also be required to sit their exams online, at home using a personal computer. To find out more about exams, visit our assessments and exams page on the website.

Question 122: I'm interested in becoming a teacher. How will teaching placements work, given that your degrees are online?

Answer: Students studying our online education courses still have to complete placements like on-campus students. In order to register to teach, graduates must have completed at least 60 days of professional placement when studying at postgraduate level and at least 80 days at undergraduate level. Professional placements can be taken anywhere in Australia, in schools that use the Australian curriculum or early childhood settings that use the Early Years Learning Framework.

Question 122a: How will teaching practicums be arranged for online degree students pursuing a teaching career?

Answer: Students studying our online education courses still have to complete placements like on-campus students. In order to register to teach, graduates must have completed at least 60 days of professional placement when studying at postgraduate level and at least 80 days at undergraduate level. Professional placements can be taken anywhere in Australia, in schools that use the Australian curriculum or early childhood settings that use the Early Years Learning Framework.

Question 122b: Are teaching placements possible for individuals enrolled in online degree programs pursuing a teaching profession?

Answer: Students studying our online education courses still have to complete placements like on-campus students. In order to register to teach, graduates must have completed at least 60 days of professional placement when studying at postgraduate level and at least 80 days at undergraduate level. Professional placements can be taken anywhere in Australia, in schools that use the Australian curriculum or early childhood settings that use the Early Years Learning Framework.

Question 122c: What are the arrangements for teaching placements for students completing an online degree in teaching?

Answer: Students studying our online education courses still have to complete placements like on-campus students. In order to register to teach, graduates must have completed at least 60 days of professional placement when studying at postgraduate level and at least 80 days at undergraduate level. Professional placements can be taken anywhere in Australia, in schools that use the Australian curriculum or early childhood settings that use the Early Years Learning Framework.

Question 122d: Can online degree students pursuing a teaching profession participate in teaching placements?

Answer: Students studying our online education courses still have to complete placements like on-campus students. In order to register to teach, graduates must have completed at least 60 days of professional placement when studying at postgraduate level and at least 80 days at undergraduate level. Professional placements can be taken anywhere in Australia, in schools that use the Australian curriculum or early childhood settings that use the Early Years Learning Framework.

Question 123: I'm not sure what to study. Who can help me?

Answer: If you are unsure which qualification is most relevant to you, speak to a Course Consultant for some advice or see our Levels of Education FAQ section. Otherwise you can submit an application form and one of our Course Consultants will be in touch.

Question 123a: Where can I find assistance in deciding what to study?

Answer: If you are unsure which qualification is most relevant to you, speak to a Course Consultant for some advice or see our Levels of Education FAQ section. Otherwise you can submit an application form and one of our Course Consultants will be in touch.

Question 123b: Is there anyone who can offer guidance on selecting a course of study?

Answer: If you are unsure which qualification is most relevant to you, speak to a Course Consultant for some advice or see our Levels of Education FAQ section. Otherwise you can submit an application form and one of our Course Consultants will be in touch.

Question 123c: Who can provide advice on choosing a field of study that is right for me?

Answer: If you are unsure which qualification is most relevant to you, speak to a Course Consultant for some advice or see our Levels of Education FAQ section. Otherwise you can submit an application form and one of our Course Consultants will be in touch.

Question 123d: What resources are available to help me determine which area of study to pursue?

Answer: If you are unsure which qualification is most relevant to you, speak to a Course Consultant for some advice or see our Levels of Education FAQ section. Otherwise you can submit an application form and one of our Course Consultants will be in touch.

Question 124: I'm not sure if I meet the entry requirements but I want to study. What should I do?

Answer: If you're unsure about whether you'll be eligible to study with Swinburne, it's definitely worth calling our team of course consultants on 1300 069 765 or +61 3 9956 0777 if you are calling from overseas. The team will be able to outline which entry requirements are relevant to you and explain your next steps. Often students will be eligible for a range of courses on the basis of their work experience. It may be as simple as sending through an updated resume to get on track towards your qualification of choice.

Question 124a: What steps should I take if I am uncertain whether I meet the entry requirements but want to pursue a course of study?

Answer: If you're unsure about whether you'll be eligible to study with Swinburne, it's definitely worth calling our team of course consultants on 1300 069 765 or +61 3 9956 0777 if you are calling from overseas. The team will be able to outline which entry requirements are relevant to you and explain your next steps. Often students will be eligible for a range of courses on the basis of their work experience. It may be as simple as sending through an updated resume to get on track towards your qualification of choice.

Question 124b: How can I determine if I meet the admission criteria for a course of study if I am unsure?

Answer: If you're unsure about whether you'll be eligible to study with Swinburne, it's definitely worth calling our team of course consultants on 1300 069 765 or +61 3 9956 0777 if you are calling from overseas. The team will be able to outline which entry requirements are relevant to you and explain your next steps. Often students will be eligible for a range of courses on the basis of their work experience. It may be as simple as sending through an updated resume to get on track towards your qualification of choice.

Question 124c: What can I do if I want to study but am unsure if I satisfy the entry requirements?

Answer: If you're unsure about whether you'll be eligible to study with Swinburne, it's definitely worth calling our team of course consultants on 1300 069 765 or +61 3 9956 0777 if you are calling from overseas. The team will be able to outline which entry requirements are relevant to you and explain your next steps. Often students will be eligible for a range of courses on the basis of their

work experience. It may be as simple as sending through an updated resume to get on track towards your qualification of choice.

Question 124d: Is there a way to confirm whether I am eligible to enroll in a program of study if I am uncertain about meeting the requirements?

Answer: If you're unsure about whether you'll be eligible to study with Swinburne, it's definitely worth calling our team of course consultants on 1300 069 765 or +61 3 9956 0777 if you are calling from overseas. The team will be able to outline which entry requirements are relevant to you and explain your next steps. Often students will be eligible for a range of courses on the basis of their work experience. It may be as simple as sending through an updated resume to get on track towards your qualification of choice.

Question 125: I currently work at an early childhood service, primary or secondary school, can I do my teaching placement at my workplace?

Answer: A placement may be able to be completed at your workplace depending on your course and circumstances. Please contact the Placements Team to discuss if this is an option for a particular placement in your course.

Question 125a: Is it possible to conduct a teaching practicum at my current place of employment, such as an early childhood service, primary or secondary school?

Answer: A placement may be able to be completed at your workplace depending on your course and circumstances. Please contact the Placements Team to discuss if this is an option for a particular placement in your course.

Question 125b: Can I complete my teaching placement at the same school or early childhood service where I am presently employed?

Answer: A placement may be able to be completed at your workplace depending on your course and circumstances. Please contact the Placements Team to discuss if this is an option for a particular placement in your course.

Question 125c: Is it acceptable to fulfill the teaching practicum requirement at the institution where I am currently employed, such as an early childhood service, primary or secondary school?

Answer: A placement may be able to be completed at your workplace depending on your course and circumstances. Please contact the Placements Team to discuss if this is an option for a particular placement in your course.

Question 125d: Can a teaching placement be arranged at my current workplace, which is an early childhood service, primary or secondary school?

Answer: A placement may be able to be completed at your workplace depending on your course and circumstances. Please contact the Placements Team to discuss if this is an option for a particular placement in your course.

Question 126: How will a credit for previous studies appear on my transcript?

Answer: If you have credits or exemptions from previous study, it will appear on your academic transcript under 'Other Results'. Please note there will be no grade or mark associated with these studies.

Question 126a: What is the format of a transcript that shows credit for previous studies?

Answer: If you have credits or exemptions from previous study, it will appear on your academic transcript under 'Other Results'. Please note there will be no grade or mark associated with these studies.

Question 126b: How is credit for prior learning indicated on a transcript?

Answer: If you have credits or exemptions from previous study, it will appear on your academic transcript under 'Other Results'. Please note there will be no grade or mark associated with these studies.

Question 126c: In what manner will a credit for previous studies be recorded on my transcript?

Answer: If you have credits or exemptions from previous study, it will appear on your academic transcript under 'Other Results'. Please note there will be no grade or mark associated with these studies.

Question 126d: How will the recognition of prior learning be reflected on my official transcript?

Answer: If you have credits or exemptions from previous study, it will appear on your academic transcript under 'Other Results'. Please note there will be no grade or mark associated with these studies.

Question 127: How much will my course cost?

Answer: For domestic university students, estimates of your overall course cost can be found on our Course Fees page on the website. For international students, course fees can be found on their Course Fees and Scholarships page. These prices may vary slightly depending on which units you choose. For more information about individual unit costs, visit Swinburne University of Technology's Higher education fees page. For information on how much your VET course will cost, visit our VET Fees page.

Question 127a: What is the tuition fee for the course I'm interested in?

Answer: For domestic university students, estimates of your overall course cost can be found on our Course Fees page on the website. For international students, course fees can be found on their Course Fees and Scholarships page. These prices may vary slightly depending on which units you choose. For more information about individual unit costs, visit Swinburne University of Technology's Higher education fees page. For information on how much your VET course will cost, visit our VET Fees page.

Question 127b: Could you please provide me with information regarding the cost of the course?

Answer: For domestic university students, estimates of your overall course cost can be found on our Course Fees page on the website. For international students, course fees can be found on their Course Fees and Scholarships page. These prices may vary slightly depending on which units you choose. For more information about individual unit costs, visit Swinburne University of Technology's Higher education fees page. For information on how much your VET course will cost, visit our VET Fees page.

Question 127c: What are the fees associated with the course I'm considering?

Answer: For domestic university students, estimates of your overall course cost can be found on our Course Fees page on the website. For international students, course fees can be found on their Course Fees and Scholarships page. These prices may vary slightly depending on which units you choose. For more information about individual unit costs, visit Swinburne University of Technology's Higher education fees page. For information on how much your VET course will cost, visit our VET Fees page.

Question 127d: How much do I need to pay for the course I want to take?

Answer: For domestic university students, estimates of your overall course cost can be found on our Course Fees page on the website. For international students, course fees can be found on their Course Fees and Scholarships page. These prices may vary slightly depending on which units you choose. For more information about individual unit costs, visit Swinburne University of Technology's Higher education fees page. For information on how much your VET course will cost, visit our VET Fees page.

Question 128: How many units can I undertake per teaching period?

Answer: Within a teaching period, you have to do at least one unit to continue studying your degree. The maximum amount of units you can undertake in a teaching period is four units. If you need to take a teaching period off, you can look at deferring your course.

Question 128a: What is the maximum number of units I can enrol in per semester/quarter/term?

Answer: Within a teaching period, you have to do at least one unit to continue studying your degree. The maximum amount of units you can undertake in a teaching period is four units. If you need to take a teaching period off, you can look at deferring your course.

Question 128b: Can you tell me the limit for the number of units I can take per academic period?

Answer: Within a teaching period, you have to do at least one unit to continue studying your degree. The maximum amount of units you can undertake in a teaching period is four units. If you need to take a teaching period off, you can look at deferring your course.

Question 128c: How many courses can I register for each term/semester?

Answer: Within a teaching period, you have to do at least one unit to continue studying your degree. The maximum amount of units you can undertake in a teaching period is four units. If you need to take a teaching period off, you can look at deferring your course.

Question 128d: What is the maximum course load I can take per teaching period?

Answer: Within a teaching period, you have to do at least one unit to continue studying your degree. The maximum amount of units you can undertake in a teaching period is four units. If you need to take a teaching period off, you can look at deferring your course.

Question 129: How many placements do I have to do?

Answer: The number of placements you have to complete depends on your course: Bachelor of Education (Primary): 3 x 20 days, 1 x 21 days. Total: 81 days Bachelor of Education (Early Childhood Teaching): 4 x 20 days. Total: 80 days Bachelor of Education (Early Childhood and Primary): 3 x 20 days, 1 x 21 days, 1 x 10 days. Total: 91 days Master of Teaching (Primary): 3 x 20 days. Total: 60 days Master of Teaching (Secondary): 3 x 20 days. Total: 60 days

Question 129a: What is the minimum number of work placements required for the program?

Answer: The number of placements you have to complete depends on your course: Bachelor of Education (Primary): 3 x 20 days, 1 x 21 days. Total: 81 days Bachelor of Education (Early Childhood Teaching): 4 x 20 days. Total: 80 days Bachelor of Education (Early Childhood and Primary): 3 x 20 days, 1 x 21 days, 1 x 10 days. Total: 91 days Master of Teaching (Primary): 3 x 20 days. Total: 60 days Master of Teaching (Secondary): 3 x 20 days. Total: 60 days

Question 129b: Can you provide me with information on the number of internships I need to complete?

Answer: The number of placements you have to complete depends on your course: Bachelor of Education (Primary): 3 x 20 days, 1 x 21 days. Total: 81 days Bachelor of Education (Early Childhood Teaching): 4 x 20 days. Total: 80 days Bachelor of Education (Early Childhood and Primary): 3 x 20 days, 1 x 21 days, 1 x 10 days. Total: 91 days Master of Teaching (Primary): 3 x 20 days. Total: 60 days Master of Teaching (Secondary): 3 x 20 days. Total: 60 days

Question 129c: How many fieldwork assignments do I need to fulfill in this course?

Answer: The number of placements you have to complete depends on your course: Bachelor of Education (Primary): 3 x 20 days, 1 x 21 days. Total: 81 days Bachelor of Education (Early Childhood Teaching): 4 x 20 days. Total: 80 days Bachelor of Education (Early Childhood and Primary): 3 x 20 days, 1 x 21 days, 1 x 10 days. Total: 91 days Master of Teaching (Primary): 3 x 20 days. Total: 60 days Master of Teaching (Secondary): 3 x 20 days. Total: 60 days

Question 129d: What is the total number of practicum hours I need to complete to graduate from the program?

Answer: The number of placements you have to complete depends on your course: Bachelor of Education (Primary): 3 x 20 days, 1 x 21 days. Total: 81 days Bachelor of Education (Early Childhood Teaching): 4 x 20 days. Total: 80 days Bachelor of Education (Early Childhood and Primary): 3 x 20 days, 1 x 21 days, 1 x 10 days. Total: 91 days Master of Teaching (Primary): 3 x 20 days. Total: 60 days Master of Teaching (Secondary): 3 x 20 days. Total: 60 days

Question 130: How many hours of study per week are recommended per unit?

Answer: For most undergraduate students, we recommend you allow eight hours of study a week per unit. For postgraduate education students (domestic only), we recommend 10 hours a week per unit and for postgraduate business students and undergraduate design students we recommend allowing 12 hours a week of study per unit.

Question 130a: What is the suggested number of study hours per week for each course credit?

Answer: For most undergraduate students, we recommend you allow eight hours of study a week per unit. For postgraduate education students (domestic only), we recommend 10 hours a week per unit and for postgraduate business students and undergraduate design students we recommend allowing 12 hours a week of study per unit.

Question 130b: Can you provide information on the recommended weekly study time per credit hour?

Answer: For most undergraduate students, we recommend you allow eight hours of study a week per unit. For postgraduate education students (domestic only), we recommend 10 hours a week per unit and for postgraduate business students and undergraduate design students we recommend allowing 12 hours a week of study per unit.

Question 130c: How many hours of self-study should I plan for each credit hour?

Answer: For most undergraduate students, we recommend you allow eight hours of study a week per unit. For postgraduate education students (domestic only), we recommend 10 hours a week per unit and for postgraduate business students and undergraduate design students we recommend allowing 12 hours a week of study per unit.

Question 130d: What is the advised number of study hours per course unit per week?

Answer: For most undergraduate students, we recommend you allow eight hours of study a week per unit. For postgraduate education students (domestic only), we recommend 10 hours a week per unit and for postgraduate business students and undergraduate design students we recommend allowing 12 hours a week of study per unit.

Question 131: How many alumni are there?

Answer: Swinburne University has over 215,000 alumni in more than 140 countries around the world.

Question 131a: How many former students have graduated from this institution/program?

Answer: Swinburne University has over 215,000 alumni in more than 140 countries around the world.

Question 131b: Can you tell me the number of alumni associated with this school/department?

Answer: Swinburne University has over 215,000 alumni in more than 140 countries around the world.

Question 131c: What is the total count of graduates from this course/program?

Answer: Swinburne University has over 215,000 alumni in more than 140 countries around the world.

Question 131d: How many individuals who completed this degree have become alumni of this institution?

Answer: Swinburne University has over 215,000 alumni in more than 140 countries around the world.

Question 132: How long will my application take to be assessed?

Answer: Our team of Course Consultants will normally get in touch with you within two working days of you submitting your application with an outcome, or to retrieve some further information. During busy periods this time frame can be a little longer. You are welcome to contact us if you'd like to follow up on an application that has exceeded this guideline.

Question 132a: What is the estimated time for processing my application?

Answer: Our team of Course Consultants will normally get in touch with you within two working days of you submitting your application with an outcome, or to retrieve some further information. During busy periods this time frame can be a little longer. You are welcome to contact us if you'd like to follow up on an application that has exceeded this guideline.

Question 132b: How long does it usually take to evaluate an application for this program?

Answer: Our team of Course Consultants will normally get in touch with you within two working days of you submitting your application with an outcome, or to retrieve some further information. During busy periods this time frame can be a little longer. You are welcome to contact us if you'd like to follow up on an application that has exceeded this guideline.

Question 132c: When can I expect to receive a decision on my application?

Answer: Our team of Course Consultants will normally get in touch with you within two working days of you submitting your application with an outcome, or to retrieve some further information. During busy periods this time frame can be a little longer. You are welcome to contact us if you'd like to follow up on an application that has exceeded this guideline.

Question 132d: What is the average waiting time for an application to be reviewed and assessed?

Answer: Our team of Course Consultants will normally get in touch with you within two working days of you submitting your application with an outcome, or to retrieve some further information. During busy periods this time frame can be a little longer. You are welcome to contact us if you'd like to follow up on an application that has exceeded this guideline.

Question 133: How long will it take to earn my degree?

Answer: The length of your degree will largely depend on how many units you undertake per teaching period. The number of units required to complete a degree varies from qualification to qualification and you can see how many units are required to complete a particular degree on our

Course Pages. Alternatively, you can have a look at our Course Planners for more detailed information about how to manage a specific degree. As students have the option of studying between one and four units per teaching period and can change their study load throughout, each student will graduate at a different point. If you are studying a VET course, you can personalise your program, giving you the freedom to set your own goals, choose what units you study first, and determine how long you spend on each one. So whether you want to complete your diploma in two months or over a year — you can work towards your goals at a pace that suits you. It's important to note that number of study hours required for each diploma does change, and you can view the specific requirements on our VET course pages.

Question 133a: What is the expected duration of the program until graduation?

Answer: The length of your degree will largely depend on how many units you undertake per teaching period. The number of units required to complete a degree varies from qualification to qualification and you can see how many units are required to complete a particular degree on our Course Pages. Alternatively, you can have a look at our Course Planners for more detailed information about how to manage a specific degree. As students have the option of studying between one and four units per teaching period and can change their study load throughout, each student will graduate at a different point. Question 134: How long has Swinburne been around for?

Answer: Swinburne started as a technical college in 1909 and gained university status in 1992. Read the history of Swinburne.

Question 134a: What is the history of Swinburne University?

Answer: Swinburne started as a technical college in 1909 and gained university status in 1992. Read the history of Swinburne.

Question 134b: How many years has Swinburne University been established?

Answer: Swinburne started as a technical college in 1909 and gained university status in 1992. Read the history of Swinburne.

Question 134c: Can you tell me the founding date of Swinburne University?

Answer: Swinburne started as a technical college in 1909 and gained university status in 1992. Read the history of Swinburne.

Question 134d: For how long has Swinburne University been operating as an educational institution?

Answer: Swinburne started as a technical college in 1909 and gained university status in 1992. Read the history of Swinburne.

Question 135: How does your model of online study work for the Diploma of Nursing?

Answer: All of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from your Vocational Learning Advisors (VLAs). The Diploma of Nursing course is fast-paced and you will need to find a work-life-study balance that suits your personal needs.

Question 135a: Can you explain how the online learning model works for the Diploma of Nursing program?

Answer: All of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from your Vocational Learning Advisors (VLAs). The Diploma of Nursing course is fast-paced and you will need to find a work-life-study balance that suits your personal needs.

Question 135b: How does the online study format operate for students pursuing a Diploma of Nursing?

Answer: All of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from your Vocational Learning Advisors (VLAs). The Diploma of Nursing course is fast-paced and you will need to find a work-life-study balance that suits your personal needs.

Question 135c: What is the method of instruction used in the online learning model for the Diploma of Nursing?

Answer: All of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from your Vocational Learning Advisors (VLAs). The Diploma of Nursing course is fast-paced and you will need to find a work-life-study balance that suits your personal needs.

Question 135d: Can you provide more details about the online study structure for the Diploma of Nursing program?

Answer: All of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from your Vocational Learning Advisors (VLAs). The Diploma of Nursing course is fast-paced and you will need to find a work-life-study balance that suits your personal needs.

Question 136: How does your model of online study work for TAFE?

Answer: When you study a TAFE course with Swinburne Online all of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from teachers. You'll be able to personalise your program, giving you the freedom to set your own goals, choose what units you study first, and determine how long you spend on each one. With the support of your Assessors and Lead Trainer, you can work towards your goals at a pace that suits you.

Question 136a: Can you explain how the online learning model operates for TAFE courses?

Answer: When you study a TAFE course with Swinburne Online all of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from teachers. You'll be able to personalise your program, giving you the freedom to set your own goals, choose what units you study first, and determine how long you spend on each one. With the support of your Assessors and Lead Trainer, you can work towards your goals at a pace that suits you.

Question 136b: What is the method of instruction used in the online study format for TAFE programs?

Answer: When you study a TAFE course with Swinburne Online all of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from teachers. You'll be able to personalise your program, giving you the freedom to set your own

goals, choose what units you study first, and determine how long you spend on each one. With the support of your Assessors and Lead Trainer, you can work towards your goals at a pace that suits you.

Question 136c: How does the online study structure work for students enrolled in TAFE courses?

Answer: When you study a TAFE course with Swinburne Online all of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from teachers. You'll be able to personalise your program, giving you the freedom to set your own goals, choose what units you study first, and determine how long you spend on each one. With the support of your Assessors and Lead Trainer, you can work towards your goals at a pace that suits you.

Question 136d: Can you provide more information about the online learning model for TAFE studies?

Answer: When you study a TAFE course with Swinburne Online all of your study will happen in Canvas. Canvas is the online platform where you'll manage your course and receive study support from teachers. You'll be able to personalise your program, giving you the freedom to set your own goals, choose what units you study first, and determine how long you spend on each one. With the support of your Assessors and Lead Trainer, you can work towards your goals at a pace that suits you.

Question 137: How does your model of online study work for higher education if there are no lectures?

Answer: We know students are most successful when they learn actively. This means not just remembering new information, but evaluating it and using it to solve problems and to come up with new ideas. Students at Swinburne Online learn with the three learning components: theory, practice and sharing. You learn your theory through the free Learning Materials, put it into practice with weekly Learning Activities and then share your learnings with other classmates in the Discussion Boards.

Question 137a: Can you explain how the online learning model operates for higher education when there are no traditional lectures?

Answer: We know students are most successful when they learn actively. This means not just remembering new information, but evaluating it and using it to solve problems and to come up with new ideas. Students at Swinburne Online learn with the three learning components: theory, practice and sharing. You learn your theory through the free Learning Materials, put it into practice with

weekly Learning Activities and then share your learnings with other classmates in the Discussion Boards.

Question 137b: What is the method of instruction used in the online study format for higher education courses without lectures?

Answer: We know students are most successful when they learn actively. This means not just remembering new information, but evaluating it and using it to solve problems and to come up with new ideas. Students at Swinburne Online learn with the three learning components: theory, practice and sharing. You learn your theory through the free Learning Materials, put it into practice with weekly Learning Activities and then share your learnings with other classmates in the Discussion Boards.

Question 137c: How does the online study structure work for students enrolled in higher education courses without lectures?

Answer: We know students are most successful when they learn actively. This means not just remembering new information, but evaluating it and using it to solve problems and to come up with new ideas. Students at Swinburne Online learn with the three learning components: theory, practice and sharing. You learn your theory through the free Learning Materials, put it into practice with weekly Learning Activities and then share your learnings with other classmates in the Discussion Boards.

Question 137d: Can you provide more information about the online learning model for higher education programs that do not include lectures?

Answer: We know students are most successful when they learn actively. This means not just remembering new information, but evaluating it and using it to solve problems and to come up with new ideas. Students at Swinburne Online learn with the three learning components: theory, practice and sharing. You learn your theory through the free Learning Materials, put it into practice with weekly Learning Activities and then share your learnings with other classmates in the Discussion Boards.

In recent years, Swinburne has become one of the world's leading universities, ranking in the top 400 in the world, as assessed by the Academic Ranking of World Universities. This result places Swinburne among the top 2% of universities in the world. Swinburne

has over 30,000 students enrolled worldwide, supported by 2,800 staff and an alumni network of over 90,000.

Question 138a: How does Swinburne University of Technology compare to other universities in terms of academic excellence?

Answer: For over 100 years Swinburne has been committed to providing our students with the latest innovations in education. In recent years, Swinburne has become one of the world's leading universities, ranking in the top 400 in the world, as assessed by the Academic Ranking of World Universities. This result places Swinburne among the top 2% of universities in the world. Swinburne has over 30,000 students enrolled worldwide, supported by 2,800 staff and an alumni network of over 90,000.

Question 138b: Can you provide a ranking or comparison of Swinburne University of Technology with other universities?

Answer: For over 100 years Swinburne has been committed to providing our students with the latest innovations in education. In recent years, Swinburne has become one of the world's leading universities, ranking in the top 400 in the world, as assessed by the Academic Ranking of World Universities. This result places Swinburne among the top 2% of universities in the world. Swinburne has over 30,000 students enrolled worldwide, supported by 2,800 staff and an alumni network of over 90,000.

Question 138c: What is the academic standing of Swinburne University of Technology in comparison to other universities?

Answer: For over 100 years Swinburne has been committed to providing our students with the latest innovations in education. In recent years, Swinburne has become one of the world's leading universities, ranking in the top 400 in the world, as assessed by the Academic Ranking of World Universities. This result places Swinburne among the top 2% of universities in the world. Swinburne has over 30,000 students enrolled worldwide, supported by 2,800 staff and an alumni network of over 90,000.

Question 138d: How does Swinburne University of Technology fare against other universities in terms of quality of education?

Answer: For over 100 years Swinburne has been committed to providing our students with the latest innovations in education. In recent years, Swinburne has become one of the world's leading universities, ranking in the top 400 in the world, as assessed by the Academic Ranking of World Universities. This result places Swinburne among the top 2% of universities in the world. Swinburne has over 30,000 students enrolled worldwide, supported by 2,800 staff and an alumni network of over 90,000.

Question 139: How does online study work?

Answer: You can undertake our courses from anywhere with an internet connection, including the comfort of your own home during social isolation. Swinburne Online takes domestic students for both degrees and TAFE diplomas from anywhere in Australia. International students are also accepted for our degrees, although some differences to their payment processes will apply. You won't normally have to be online at a specific time. Your course material is available for you from the beginning of each teaching period and you can work through it in the hours that suit you. There are some live webinar sessions that run approximately once a month. These are a special opportunity for students to sign in at the same time as their tutors, normally before an assessment deadline. It gives you the chance to ask any questions relating to the assignment in real time and hear other student's questions and thoughts. We understand that students won't always be able to make these sessions, so they can be replayed the next day.

Question 139a: What is the method of instruction used in online study?

Answer: You can undertake our courses from anywhere with an internet connection, including the comfort of your own home during social isolation. Swinburne Online takes domestic students for both degrees and TAFE diplomas from anywhere in Australia. International students are also accepted for our degrees, although some differences to their payment processes will apply. You won't normally have to be online at a specific time. If successful, they will be then able to finalise your application with you over the phone.

Question 143: How do exams work?

Answer: Exam attendance is necessary for all of our courses, other than education courses, our Bachelor of Design (Communication Design) and some media studies units. Exams are taken at specified exam centre venues in capital cities around Australia. When students reside more than 100km from an exam centre, or have any condition that would prevent them from taking exams at exam centres, they can sit an online exam. All our international students will also be required to sit their exams online, at home using a personal computer. To find out more about exams, visit our assessments and exams page.

Question 143a: Can you provide an overview of the exam process?

Answer: Exam attendance is necessary for all of our courses, other than education courses, our Bachelor of Design (Communication Design) and some media studies units. Exams are taken at specified exam centre venues in capital cities around Australia. When students reside more than 100km from an exam centre, or have any condition that would prevent them from taking exams at exam centres, they can sit an online exam. All our international students will also be required to sit their exams online, at home using a personal computer. To find out more about exams, visit our assessments and exams page.

Answer: Neither the operations nor the teaching period at Swinburne Online have been impacted by the COVID-19 pandemic. We will continue to operate as business as usual throughout this time of uncertainty, with no reduction in teaching, support or enrolment services. Our intake dates remain unchanged. Swinburne Online is designed to thrive in the online environment. Our experienced support teams and tutors have always effectively worked with our satisfied students from a distance.

Question 148: Does the Graduate Certification in Professional Data Analytics prepare me for the Tableau Desktop Certified Specialist certification exam?

Answer: Yes! The Data Analytics for Business unit, which forms part of the Graduate Certificate of Professional Data Analytics, covers the subjects and topics assessed in the Tableau Desktop Certified Specialist certification exam. These include how to:

- create and explain data connections
- organise and simplify data
- create basic charts and visualisations
- calculate and map data
- create a dashboard.

While the unit will equip you with the knowledge and skills that are tested on the exam, it is not designed to be direct preparation for the certification and we recommend consulting the Tableau exam guide and free resources, in addition to the unit content, during your preparation.

Question 148a: Can the Graduate Certification in Professional Data Analytics adequately equip me for the Tableau Desktop Certified Specialist certification exam?

Answer: Yes! The Data Analytics for Business unit, which forms part of the Graduate Certificate of Professional Data Analytics, covers the subjects and topics assessed in the Tableau Desktop Certified Specialist certification exam. These include how to:

- create and explain data connections
- organise and simplify data

- create basic charts and visualisations
- calculate and map data
- create a dashboard.

While the unit will equip you with the knowledge and skills that are tested on the exam, it is not designed to be direct preparation for the certification and we recommend consulting the Tableau exam guide and free resources, in addition to the unit content, during your preparation.

Question 148b: Does the Graduate Certification in Professional Data Analytics provide the necessary preparation for the Tableau Desktop Certified Specialist certification exam?

Answer: Yes! The Data Analytics for Business unit, which forms part of the Graduate Certificate of Professional Data Analytics, covers the subjects and topics assessed in the Tableau Desktop Certified Specialist certification exam. These include how to:

- create and explain data connections
- organise and simplify data
- create basic charts and visualisations
- calculate and map data
- create a dashboard.

While the unit will equip you with the knowledge and skills that are tested on the exam, it is not designed to be direct preparation for the certification and we recommend consulting the Tableau exam guide and free resources, in addition to the unit content, during your preparation.

Question 148c: Will completing the Graduate Certification in Professional Data Analytics sufficiently ready me for the Tableau Desktop Certified Specialist certification exam?

Answer: Yes! The Data Analytics for Business unit, which forms part of the Graduate Certificate of Professional Data Analytics, covers the subjects and topics assessed in the Tableau Desktop Certified Specialist certification exam. These include how to:

- create and explain data connections
- organise and simplify data
- create basic charts and visualisations
- calculate and map data
- create a dashboard.

While the unit will equip you with the knowledge and skills that are tested on the exam, it is not designed to be direct preparation for the certification and we recommend consulting the Tableau exam guide and free resources, in addition to the unit content, during your preparation.

Question 148d: Does the Graduate Certification in Professional Data Analytics cover the essential knowledge and skills required for the Tableau Desktop Certified Specialist certification exam?

Answer: Yes! The Data Analytics for Business unit, which forms part of the Graduate Certificate of Professional Data Analytics, covers the subjects and topics assessed in the Tableau Desktop Certified Specialist certification exam. These include how to:

- create and explain data connections
- organise and simplify data
- create basic charts and visualisations
- calculate and map data
- create a dashboard.

While the unit will equip you with the knowledge and skills that are tested on the exam, it is not designed to be direct preparation for the certification and we recommend consulting the Tableau exam guide and free resources, in addition to the unit content, during your preparation.

Question 149: Do you offer online support, or will I need to figure it all out myself?

Answer: We have a whole variety of support options available to students seven days a week, so no one is ever left feeling alone. For students studying a degree with us, your small online class of 20-24 students is run by a dedicated online tutor (eLearning Advisor), who will always be happy to respond to your questions. Our Student Advisors (SAs) are a team of academic/technical and administrative specialists who can be contacted seven days a week. They can help with issues from advice on assignments to problems with logging in to the Student Portal. We also have online assessment support options that will cater to a range of academic needs. To find out more about our university support options, visit the student support page on our website. For VET students, everything you need to know to complete your diploma is housed in our unique system called Canvas. However, if you do find yourself with questions one of our VET student team are on hand.

Question 149a: Is online support available to assist me, or do I need to independently navigate through everything?

Answer: We have a whole variety of support options available to students seven days a week, so no one is ever left feeling alone. For students studying a degree with us, your small online class of 20-24 students is run by a dedicated online tutor (eLearning Advisor), who will always be happy to respond to your questions. Question 154d: Are there any options available for obtaining learning materials, such as accessing them digitally or through a library, instead of purchasing them outright for diploma of nursing?

Answer: Yes, you will be required to purchase textbooks for this course at an additional cost. You will also need to purchase a nursing kit and a uniform for when you go on placement at your own cost. You can purchase these online once you begin your studies or at your on-campus orientation tour.

Question 155: Do I need to be logged on to study at specific times?

Answer: You won't normally have to be online at a specific time. Your course material is available for you from the beginning of each teaching period and you can work through it in the hours that suit you. There are some live webinar sessions that run approximately once a month. These are a special opportunity for students to sign in at the same time as their tutors, normally before an assessment deadline. It gives you the chance to ask any questions relating to the assignment in real time and hear other student's questions and thoughts. We understand that students won't always be able to make these sessions, so they can be replayed the next day.

Question 155a: Are there specific time requirements or schedules that students need to adhere to when studying online?

Answer: You won't normally have to be online at a specific time. Your course material is available for you from the beginning of each teaching period and you can work through it in the hours that suit you. There are some live webinar sessions that run approximately once a month. These are a special opportunity for students to sign in at the same time as their tutors, normally before an assessment deadline. It gives you the chance to ask any questions relating to the assignment in real time and hear other student's questions and thoughts. We understand that students won't always be able to make these sessions, so they can be replayed the next day.

Question 155b: Is there a designated time during which students must be logged in to access course materials and participate in online learning activities?

Answer: You won't normally have to be online at a specific time. Your course material is available for you from the beginning of each teaching period and you can work through it in the hours that suit you. There are some live webinar sessions that run approximately once a month. These are a special opportunity for students to sign in at the same time as their tutors, normally before an assessment deadline. It gives you the chance to ask any questions relating to the assignment in real time and

hear other student's questions and thoughts. We understand that students won't always be able to make these sessions, so they can be replayed the next day.

Question 155c: Are there any live or synchronous components in online courses that require students to be logged in at specific times for lectures, discussions, or other activities?

Answer: You won't normally have to be online at a specific time. Your course material is available for you from the beginning of each teaching period and you can work through it in the hours that suit you. There are some live webinar sessions that run approximately once a month. These are a special opportunity for students to sign in at the same time as their tutors, normally before an assessment deadline. It gives you the chance to ask any questions relating to the assignment in real time and hear other student's questions and thoughts. We understand that students won't always be able to make these sessions, so they can be replayed the next day.

Question 155d: Is there flexibility in terms of study hours, allowing students to access course materials and engage in learning activities at their convenience?

Answer: You won't normally have to be online at a specific time. Your course material is available for you from the beginning of each teaching period and you can work through it in the hours that suit you. There are some live webinar sessions that run approximately once a month. These are a special opportunity for students to sign in at the same time as their tutors, normally before an assessment deadline. It gives you the chance to ask any questions relating to the assignment in real time and hear other student's questions and thoughts. We understand that students won't always be able to make these sessions, so they can be replayed the next day.

Question 156: Do I need fancy software?

Answer: For students undertaking a degree, most of the software, like your online eTexts, that you will need to complete your course can be downloaded for free, using a license provided to you by Swinburne Online. However, certain units will require students to purchase some software. If you are studying a unit(s) that requires you to purchase software, you will be notified via email prior to the start of the teaching period. All students can download a free version of Microsoft Office (Word, Excel, PowerPoint) for the duration of their studies. You will also need ongoing access to either:

- Mac: OS X Version 10.7 or higher
- PC: Windows 7 or newer.

Question 156a: Are students required to use high-end or specialized software for their academic studies?

Answer: For students undertaking a degree, most of the software, like your online eTexts, that you will need to complete your course can be downloaded for free, using a license provided to you by Swinburne Online. However, certain units will require students to purchase some software. If you are studying a unit(s) that requires you to purchase software, you will be notified via email prior to the start of the teaching period. All students can download a free version of Microsoft Office (Word, Excel, PowerPoint) for the duration of their studies. You will also need ongoing access to either:

- Mac: OS X Version 10.7 or higher
- PC: Windows 7 or newer.

Question 156b: What software or technological tools are essential for students to have in order to support their academic studies?

Answer: For students undertaking a degree, most of the software, like your online eTexts, that you will need to complete your course can be downloaded for free, using a license provided to you by Swinburne Online. However, certain units will require students to purchase some software. If you are studying a unit(s) that requires you to purchase software, you will be notified via email prior to the start of the teaching period. All students can download a free version of Microsoft Office (Word, Excel, PowerPoint) for the duration of their studies. You will also need ongoing access to either:

- Mac: OS X Version 10.7 or higher
- PC: Windows 7 or newer.

Question 156c: Are there any alternative, free, or open-source software options available that can be used for academic studies?

Answer: For students undertaking a degree, most of the software, like your online eTexts, that you will need to complete your course can be downloaded for free, using a license provided to you by Swinburne Online. However, certain units will require students to purchase some software. If you are studying a unit(s) that requires you to purchase software, you will be notified via email prior to the start of the teaching period. All students can download a free version of Microsoft Office (Word, Excel, PowerPoint) for the duration of their studies. You will also need ongoing access to either:

- Mac: OS X Version 10.7 or higher

- PC: Windows 7 or newer.

Question 156d: Is there a list of recommended software provided by the educational institution for students to use in their academic program?

Answer: For students undertaking a degree, most of the software, like your online eTexts, that you will need to complete your course can be downloaded for free, using a license provided to you by Swinburne Online. However, certain units will require students to purchase some software. If you are studying a unit(s) that requires you to purchase software, you will be notified via email prior to the start of the teaching period. All students can download a free version of Microsoft Office (Word, Excel, PowerPoint) for the duration of their studies. You will also need ongoing access to either:

- Mac: OS X Version 10.7 or higher

- PC: Windows 7 or newer.

Question 157: Do I have to purchase learning materials?

Answer: For students undertaking a degree, most of your learning materials are included with a free license provided to you by Swinburne Online. However, in some cases, you will be notified via your student email that you will need to buy specific software or eTexts. For TAFE Business students, all of your learning materials will be available online and are covered by your course fees. You won't need to purchase any further materials.

Question 157a: Are students required to purchase learning materials such as textbooks, workbooks, or online resources for their academic studies?

Answer: For students undertaking a degree, most of your learning materials are included with a free license provided to you by Swinburne Online. However, in some cases, you will be notified via your student email that you will need to buy specific software or eTexts. For TAFE Business students, all of

your learning materials will be available online and are covered by your course fees. You won't need to purchase any further materials.

Question 157b: Are there alternative options available for accessing learning materials without having to make purchases?

Answer: For students undertaking a degree, most of your learning materials are included with a free license provided to you by Swinburne Online. However, in some cases, you will be notified via your student email that you will need to buy specific software or eTexts. For TAFE Business students, all of your learning materials will be available online and are covered by your course fees. You won't need to purchase any further materials.

Question 157c: Is there a list of recommended learning materials provided by the educational institution, or can students choose their own materials?

Answer: For students undertaking a degree, most of your learning materials are included with a free license provided to you by Swinburne Online. However, in some cases, you will be notified via your student email that you will need to buy specific software or eTexts. For TAFE Business students, all of your learning materials will be available online and are covered by your course fees. You won't need to purchase any further materials.

Question 157d: Are there any resources or platforms available that provide free or discounted learning materials for students?

Answer: For students undertaking a degree, most of your learning materials are included with a free license provided to you by Swinburne Online. However, in some cases, you will be notified via your student email that you will need to buy specific software or eTexts. For TAFE Business students, all of your learning materials will be available online and are covered by your course fees. You won't need to purchase any further materials.

Question 158: Do I have to pay for my studies upfront?

Answer: If you are eligible for a HECS-HELP or FEE-HELP loan, you will be able to defer your study payments until you earn above the repayment threshold defined by the Australian Tax Office. We offer either HECS-HELP or FEE-HELP to Australian citizens and permanent humanitarian visa-holders for all of our university courses. For undergraduate degrees, Commonwealth Supported Places (CSP) are available for all students who meet the entry criteria. HECS-HELP is available for Australian citizens and permanent humanitarian visa-holders as part of their CSP offer. New Zealand citizens and Australian permanent residents will need to pay their unit fees up front, but will be eligible for our domestic student fee. For postgraduate courses, Australian citizens and Permanent

Humanitarian visa-holders who are eligible for courses will be able to use FEE-HELP to pay their tuition fees. International students are not eligible for any Australian government fee assistance.

Question 158a: Is there a requirement to make upfront payments for tuition fees before commencing studies?

Answer: If you are eligible for a HECS-HELP or FEE-HELP loan, you will be able to defer your study payments until you earn above the repayment threshold defined by the Australian Tax Office. We offer either HECS-HELP or FEE-HELP to Australian citizens and permanent humanitarian visa-holders for all of our university courses. For undergraduate degrees, Commonwealth Supported Places (CSP) are available for all students who meet the entry criteria. HECS-HELP is available for Australian citizens and permanent humanitarian visa-holders as part of their CSP offer. New Zealand citizens and Australian permanent residents will need to pay their unit fees up front, but will be eligible for our domestic student fee. For postgraduate courses, Australian citizens and Permanent Humanitarian visa-holders who are eligible for courses will be able to use FEE-HELP to pay their tuition fees. International students are not eligible for any Australian government fee assistance.

Question 158b: Are there alternative payment options available besides paying the full tuition fees upfront?

Answer: If you are eligible for a HECS-HELP or FEE-HELP loan, you will be able to defer your study payments until you earn above the repayment threshold defined by the Australian Tax Office. We offer either HECS-HELP or FEE-HELP to Australian citizens and permanent humanitarian visa-holders for all of our university courses. For undergraduate degrees, Commonwealth Supported Places (CSP) are available for all students who meet the entry criteria. HECS-HELP is available for Australian citizens and permanent humanitarian visa-holders as part of their CSP offer. New Zealand citizens and Australian permanent residents will need to pay their unit fees up front, but will be eligible for our domestic student fee. For postgraduate courses, Australian citizens and Permanent Humanitarian visa-holders who are eligible for courses will be able to use FEE-HELP to pay their tuition fees. International students are not eligible for any Australian government fee assistance.

Question 158c: What are the payment arrangements or financial assistance options available to students to manage the cost of their studies?

Answer: If you are eligible for a HECS-HELP or FEE-HELP loan, you will be able to defer your study payments until you earn above the repayment threshold defined by the Australian Tax Office. We offer either HECS-HELP or FEE-HELP to Australian citizens and permanent humanitarian visa-holders for all of our university courses. For undergraduate degrees, Commonwealth Supported Places (CSP) are available for all students who meet the entry criteria. HECS-HELP is available for Australian citizens and permanent humanitarian visa-holders as part of their CSP offer. New Zealand citizens and Australian permanent residents will need to pay their unit fees up front, but will be eligible for our domestic student fee. For postgraduate courses, Australian citizens and Permanent

Humanitarian visa-holders who are eligible for courses will be able to use FEE-HELP to pay their tuition fees. International students are not eligible for any Australian government fee assistance.

Question 158d: What options are available for students who are unable to pay their academic fees upfront?

Answer: If you are eligible for a HECS-HELP or FEE-HELP loan, you will be able to defer your study payments until you earn above the repayment threshold defined by the Australian Tax Office. We offer either HECS-HELP or FEE-HELP to Australian citizens and permanent humanitarian visa-holders for all of our university courses. For undergraduate degrees, Commonwealth Supported Places (CSP) are available for all students who meet the entry criteria. HECS-HELP is available for Australian citizens and permanent humanitarian visa-holders as part of their CSP offer. New Zealand citizens and Australian permanent residents will need to pay their unit fees up front, but will be eligible for our domestic student fee. For postgraduate courses, Australian citizens and Permanent Humanitarian visa-holders who are eligible for courses will be able to use FEE-HELP to pay their tuition fees. International students are not eligible for any Australian government fee assistance.

Answer: Yes, most students will be eligible for some type of overseas study program, either longer term student exchange or short term study tours. For more information visit our Swinburne Abroad page on the Swinburne University of Technology website.

Question 160: Can I study a mixture of on-campus and online units?

Answer: If you are an on-campus student at Swinburne University of Technology, you may be able to study some of your units online, through Swinburne Online. Speak to a Course Consultant today to find out if we can meet your unit requirements.

Question 160a: Are students allowed to enrol in a combination of on-campus and online units for their studies?

Answer: If you are an on-campus student at Swinburne University of Technology, you may be able to study some of your units online, through Swinburne Online. Speak to a Course Consultant today to find out if we can meet your unit requirements.

Question 160b: Can individuals create a customized study plan by choosing both on-campus and online units concurrently?

Answer: If you are an on-campus student at Swinburne University of Technology, you may be able to study some of your units online, through Swinburne Online. Speak to a Course Consultant today to find out if we can meet your unit requirements.

Question 160c: Is there flexibility for students to select a mix of on-campus and online courses within their academic program?

Answer: If you are an on-campus student at Swinburne University of Technology, you may be able to study some of your units online, through Swinburne Online. Speak to a Course Consultant today to find out if we can meet your unit requirements.

Question 160d: Are there any specific guidelines or limitations on the proportion of on-campus and online units that students can undertake simultaneously?

Answer: If you are an on-campus student at Swinburne University of Technology, you may be able to study some of your units online, through Swinburne Online. Speak to a Course Consultant today to find out if we can meet your unit requirements.

Question 161: Can I do my education placement outside of Australia?

Answer: You may be able to complete one primary placement overseas provided that it is undertaken at either an Australian Curriculum School or an International School where the language of instruction is English. All early childhood placements must be completed in Australia. For more information, contact the Placements Team via the Help Web Form.

Question 161a: Are there opportunities for education students to complete their placements outside of the country?

Answer: You may be able to complete one primary placement overseas provided that it is undertaken at either an Australian Curriculum School or an International School where the language of instruction is English. All early childhood placements must be completed in Australia. For more information, contact the Placements Team via the Help Web Form.

Question 161b: Can students pursuing education degrees arrange placements in international settings instead of within Australia?

Answer: You may be able to complete one primary placement overseas provided that it is undertaken at either an Australian Curriculum School or an International School where the language of instruction is English. All early childhood placements must be completed in Australia. For more information, contact the Placements Team via the Help Web Form.

Question 161c: Are there any specific requirements or considerations for students who wish to do their education placements abroad?

Answer: You may be able to complete one primary placement overseas provided that it is undertaken at either an Australian Curriculum School or an International School where the language of instruction is English. All early childhood placements must be completed in Australia. For more information, contact the Placements Team via the Help Web Form.

Question 161d: Are there any limitations or restrictions on undertaking education placements outside of Australia?

Answer: You may be able to complete one primary placement overseas provided that it is undertaken at either an Australian Curriculum School or an International School where the language of instruction is English. All early childhood placements must be completed in Australia. For more information, contact the Placements Team via the Help Web Form.

Question 162: Can I cover the cost of my Introductory Skill Set Course using VET Student Loan?

Answer: No. Once you have finished your Introductory Skill Set course, you can apply for VSL to apply to the Diploma.

Question 162a: Are Introductory Skill Set Courses eligible for coverage through a VET Student Loan?

Answer: No. Once you have finished your Introductory Skill Set course, you can apply for VSL to apply to the Diploma.

Question 162b: Can individuals seeking to enroll in an Introductory Skill Set Course utilize a VET Student Loan to cover the associated expenses?

Answer: No. Once you have finished your Introductory Skill Set course, you can apply for VSL to apply to the Diploma.

Question 162c: Is there specific criteria or requirements that must be met for an Introductory Skill Set Course to be eligible for funding through a VET Student Loan?

Answer: No. Once you have finished your Introductory Skill Set course, you can apply for VSL to apply to the Diploma.

Question 162d: Are there any limitations or restrictions on using a VET Student Loan to pay for an Introductory Skill Set Course?

Answer: No. Once you have finished your Introductory Skill Set course, you can apply for VSL to apply to the Diploma.

Question 163: Are there dates I need to think about when applying for a VSL?

Answer: Yes – It's important that when you enrol, you take note of your desired start date as this will determine the deadline for your fee payment and your Census date. Start dates refer to your course start date (new students), as well as start date options for your next block of units. Census date is your last opportunity to change your enrolment without incurring the cost of your enrolled units.

Question 163a: What are the key dates and deadlines that applicants should keep in mind when applying for a VET Student Loan (VSL)?

Answer: Yes – It's important that when you enrol, you take note of your desired start date as this will determine the deadline for your fee payment and your Census date. Start dates refer to your course start date (new students), as well as start date options for your next block of units. Census date is your last opportunity to change your enrolment without incurring the cost of your enrolled units.

Question 163b: Are there any time-sensitive considerations or cutoff dates that individuals need to be aware of when submitting a VET Student Loan (VSL) application?

Answer: Yes – It's important that when you enrol, you take note of your desired start date as this will determine the deadline for your fee payment and your Census date. Start dates refer to your course start date (new students), as well as start date options for your next block of units. Census date is your last opportunity to change your enrolment without incurring the cost of your enrolled units.

Question 163c: How far in advance should I plan to apply for a VET Student Loan (VSL) to ensure I meet any relevant application deadlines or timelines?

Answer: Yes – It's important that when you enrol, you take note of your desired start date as this will determine the deadline for your fee payment and your Census date. Start dates refer to your course start date (new students), as well as start date options for your next block of units. Census date is your last opportunity to change your enrolment without incurring the cost of your enrolled units.

Question 163d: Are there any specific dates or periods during the year when VET Student Loan (VSL) applications are open or closed?

Answer: Yes – It's important that when you enrol, you take note of your desired start date as this will determine the deadline for your fee payment and your Census date. Start dates refer to your course start date (new students), as well as start date options for your next block of units. Census date is your last opportunity to change your enrolment without incurring the cost of your enrolled units.

Question 164: Are the education degrees nationally recognised?

Answer: Our education degrees are accredited and recognised by the Victorian Institute of Teaching (VIT) and/or by the Australian Institute of Teaching and Leadership (AITSL) and/or by the Australian Children's Education & Care Quality Authority (ACECQA), depending on the particular course accreditation requirements. The Bachelor of Education (Primary), Bachelor of Education (Early Childhood and Primary), Master of Teaching (Primary) and Master of Teaching (Secondary) enable you to register as a teacher anywhere in Australia under mutual recognition. For the Bachelor of Education (Early Childhood Teaching), you should check with the teacher registration authority in your state or territory and course accreditation requirements necessary for any early childhood teacher registration requirements of your state or territory.

Question 164a: Is the recognition of education degrees consistent and uniform throughout the entire country?

Answer: Our education degrees are accredited and recognised by the Victorian Institute of Teaching (VIT) and/or by the Australian Institute of Teaching and Leadership (AITSL) and/or by the Australian Children's Education & Care Quality Authority (ACECQA), depending on the particular course accreditation requirements. The Bachelor of Education (Primary), Bachelor of Education (Early Childhood and Primary), Master of Teaching (Primary) and Master of Teaching (Secondary) enable you to register as a teacher anywhere in Australia under mutual recognition. For the Bachelor of Education (Early Childhood Teaching), you should check with the teacher registration authority in your state or territory and course accreditation requirements necessary for any early childhood teacher registration requirements of your state or territory.

Question 164b: Do education degrees hold national accreditation and meet the requirements for professional recognition in Australia?

Answer: Our education degrees are accredited and recognised by the Victorian Institute of Teaching (VIT) and/or by the Australian Institute of Teaching and Leadership (AITSL) and/or by the Australian Children's Education & Care Quality Authority (ACECQA), depending on the particular course accreditation requirements. The Bachelor of Education (Primary), Bachelor of Education (Early Childhood and Primary), Master of Teaching (Primary) and Master of Teaching (Secondary) enable you to register as a teacher anywhere in Australia under mutual recognition. For the Bachelor of Education (Early Childhood Teaching), you should check with the teacher registration authority in

your state or territory and course accreditation requirements necessary for any early childhood teacher registration requirements of your state or territory.

Question 164c: Are education qualifications acknowledged and accepted by educational institutions and employers nationwide?

Answer: Our education degrees are accredited and recognised by the Victorian Institute of Teaching (VIT) and/or by the Australian Institute of Teaching and Leadership (AITSL) and/or by the Australian Children's Education & Care Quality Authority (ACECQA), depending on the particular course accreditation requirements. The Bachelor of Education (Primary), Bachelor of Education (Early Childhood and Primary), Master of Teaching (Primary) and Master of Teaching (Secondary) enable you to register as a teacher anywhere in Australia under mutual recognition. For the Bachelor of Education (Early Childhood Teaching), you should check with the teacher registration authority in your state or territory and course accreditation requirements necessary for any early childhood teacher registration requirements of your state or territory.

Question 164d: Are education degrees universally recognized and accredited nationwide?

Answer: Our education degrees are accredited and recognised by the Victorian Institute of Teaching (VIT) and/or by the Australian Institute of Teaching and Leadership (AITSL) and/or by the Australian Children's Education & Care Quality Authority (ACECQA), depending on the particular course accreditation requirements. The Bachelor of Education (Primary), Bachelor of Education (Early Childhood and Primary), Master of Teaching (Primary) and Master of Teaching (Secondary) enable you to register as a teacher anywhere in Australia under mutual recognition. For the Bachelor of Education (Early Childhood Teaching), you should check with the teacher registration authority in your state or territory and course accreditation requirements necessary for any early childhood teacher registration requirements of your state or territory.

Question 165: Are the courses the same as the on-campus courses?

Answer: Swinburne Online students receive the same qualification as students at Swinburne University of Technology, an internationally ranked university with 30,000 students across its Melbourne and overseas campuses.

Question 165a: Do online courses provide the same curriculum and content as their on-campus counterparts?

Answer: Swinburne Online students receive the same qualification as students at Swinburne University of Technology, an internationally ranked university with 30,000 students across its Melbourne and overseas campuses.

Question 165b: Are there any differences in course material or subject offerings between online education and traditional on-campus courses?

Answer: Swinburne Online students receive the same qualification as students at Swinburne University of Technology, an internationally ranked university with 30,000 students across its Melbourne and overseas campuses.

Question 165c: Are the course options and degree programs available for online learning identical to the ones offered through on-campus education?

Answer: Swinburne Online students receive the same qualification as students at Swinburne University of Technology, an internationally ranked university with 30,000 students across its Melbourne and overseas campuses.

Question 165d: Can students expect equivalent learning experiences and academic rigor in online courses compared to on-campus classes?

Answer: Swinburne Online students receive the same qualification as students at Swinburne University of Technology, an internationally ranked university with 30,000 students across its Melbourne and overseas campuses.

Question 166: Are Postgraduate students eligible for Commonwealth Supported Places (CSP)?

Answer: There are currently no Commonwealth Supported Places available to postgraduate students.

Question 166a: Do postgraduate programs offer Commonwealth Supported Places (CSP) for students pursuing advanced degrees?

Answer: There are currently no Commonwealth Supported Places available to postgraduate students.

Question 166b: What are the criteria or requirements for postgraduate students to be eligible for Commonwealth Supported Places (CSP)?

Answer: There are currently no Commonwealth Supported Places available to postgraduate students.

Question 166c: Are there any limitations or restrictions on postgraduate students accessing Commonwealth Supported Places (CSP) for their studies?

Answer: There are currently no Commonwealth Supported Places available to postgraduate students.

Question 166d: How can postgraduate students determine if they are qualified to apply for a Commonwealth Supported Place (CSP)?

Answer: There are currently no Commonwealth Supported Places available to postgraduate students.

Question 167: Are placements available part time for education students?

Answer: When attending placement you are required to attend full days (seven to eight hours per day). We recommend you complete your placement five days per week over four weeks. You also have the option of completing some placements three consecutive days per week (e.g. Wed, Thurs, Fri) over eight weeks.

Question 167a: Are there options for education students to participate in part-time placements while pursuing their studies?

Answer: When attending placement you are required to attend full days (seven to eight hours per day). We recommend you complete your placement five days per week over four weeks. You also have the option of completing some placements three consecutive days per week (e.g. Wed, Thurs, Fri) over eight weeks.

Question 167b: Can students in the field of education find part-time placement opportunities alongside their academic coursework?

Answer: When attending placement you are required to attend full days (seven to eight hours per day). We recommend you complete your placement five days per week over four weeks. You also have the option of completing some placements three consecutive days per week (e.g. Wed, Thurs, Fri) over eight weeks.

Question 167c: Is it possible for education students to engage in part-time placements as part of their practical training?

Answer: When attending placement you are required to attend full days (seven to eight hours per day). We recommend you complete your placement five days per week over four weeks. You also have the option of completing some placements three consecutive days per week (e.g. Wed, Thurs, Fri) over eight weeks.

Question 167d: Are there specific arrangements or programs in place to accommodate part-time placements for students in the education field?

Answer: When attending placement you are required to attend full days (seven to eight hours per day). We recommend you complete your placement five days per week over four weeks. You also have the option of completing some placements three consecutive days per week (e.g. Wed, Thurs, Fri) over eight weeks.

Question 168: Are exams only held at the end of each teaching period?

Answer: Yes, you are only required to attend exams at the end of each teaching period. There are no formal mid-semester exams.

Question 168a: Are there any instances where exams are conducted at a different time than the conclusion of a teaching period?

Answer: Yes, you are only required to attend exams at the end of each teaching period. There are no formal mid-semester exams.

Question 168b: Are there any alternative assessment methods utilized apart from end-of-teaching-period exams in Swinburne online?

Answer: Yes, you are only required to attend exams at the end of each teaching period. There are no formal mid-semester exams.

Question 168c: Does Swinburne online typically schedule exams exclusively at the end of each teaching period?

Answer: Yes, you are only required to attend exams at the end of each teaching period. There are no formal mid-semester exams.

Question 168d: Can exams be conducted at any time during the academic term, or are they strictly limited to the conclusion of each teaching period?

Answer: Yes, you are only required to attend exams at the end of each teaching period. There are no formal mid-semester exams.

Question 169: Am I eligible for a student concession card when studying online?

Answer: Yes, you can request a student card when you enrol with Swinburne Online. You can use this to borrow books at Swinburne University of Technology's library or any ULANZ libraries and will also need it when you attend exams.

Question 169a: What are the criteria for obtaining a student concession card for individuals engaged in online education?

Answer: Yes, you can request a student card when you enrol with Swinburne Online. You can use this to borrow books at Swinburne University of Technology's library or any ULANZ libraries and will also need it when you attend exams.

Question 169b: Are there any specific requirements or conditions that must be met to be eligible for a student concession card while studying online?

Answer: Yes, you can request a student card when you enrol with Swinburne Online. You can use this to borrow books at Swinburne University of Technology's library or any ULANZ libraries and will also need it when you attend exams.

Question 169c: How can I determine if I meet the qualifications for a student concession card while enrolled in an online learning program?

Answer: Yes, you can request a student card when you enrol with Swinburne Online. You can use this to borrow books at Swinburne University of Technology's library or any ULANZ libraries and will also need it when you attend exams.

Question 169d: Are there any limitations or restrictions on accessing a student concession card for individuals pursuing education through online platforms?

Answer: Yes, you can request a student card when you enrol with Swinburne Online. You can use this to borrow books at Swinburne University of Technology's library or any ULANZ libraries and will also need it when you attend exams.

Question 170: Am I eligible for a Commonwealth Supported Place and a HELP loan?

Answer: A Commonwealth Supported Place (CSP) is a subsidised higher education place. You will only pay the student contribution (remaining amount) of the unit fees after the government subsidy has been applied. A HECS-HELP loan will allow you to defer your fees to a government loan for CSP courses, allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. A FEE-HELP loan will allow you to defer your fees to a government loan for full fee paying places (non-CSP) allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. You can nominate to defer your fees to a HELP loan during your enrolment, and once you log into your student account that application can be finalised.

Question 170a: What are the eligibility requirements for obtaining a Commonwealth Supported Place (CSP) and accessing a HELP loan?

Answer: A Commonwealth Supported Place (CSP) is a subsidised higher education place. You will only pay the student contribution (remaining amount) of the unit fees after the government subsidy has been applied. A HECS-HELP loan will allow you to defer your fees to a government loan for CSP courses, allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. A FEE-HELP loan will allow you to defer your fees to a government loan for full fee paying places (non-CSP) allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. You can nominate to defer your fees to a HELP loan during your enrolment, and once you log into your student account that application can be finalised.

Question 170b: Are there any specific criteria that determine whether an individual can receive a Commonwealth Supported Place (CSP) and apply for a HELP loan?

Answer: A Commonwealth Supported Place (CSP) is a subsidised higher education place. You will only pay the student contribution (remaining amount) of the unit fees after the government subsidy has been applied. A HECS-HELP loan will allow you to defer your fees to a government loan for CSP courses, allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. A FEE-HELP loan will allow you to defer your fees to a government loan for full fee paying places (non-CSP) allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. You can nominate to defer your fees

to a HELP loan during your enrolment, and once you log into your student account that application can be finalised.

Question 170c: How can I determine if I meet the qualifications for a Commonwealth Supported Place (CSP) and if I am eligible for a HELP loan?

Answer: A Commonwealth Supported Place (CSP) is a subsidised higher education place. You will only pay the student contribution (remaining amount) of the unit fees after the government subsidy has been applied. A HECS-HELP loan will allow you to defer your fees to a government loan for CSP courses, allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. A FEE-HELP loan will allow you to defer your fees to a government loan for full fee paying places (non-CSP) allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. You can nominate to defer your fees to a HELP loan during your enrolment, and once you log into your student account that application can be finalised.

Question 170d: Are there any restrictions or limitations for individuals seeking a Commonwealth Supported Place (CSP) and considering a HELP loan?

Answer: A Commonwealth Supported Place (CSP) is a subsidised higher education place. You will only pay the student contribution (remaining amount) of the unit fees after the government subsidy has been applied. A HECS-HELP loan will allow you to defer your fees to a government loan for CSP courses, allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. A FEE-HELP loan will allow you to defer your fees to a government loan for full fee paying places (non-CSP) allowing you to avoid any upfront fees for your course. You would start to pay this loan back once you are earning over the advised threshold. This loan is available to Australian citizens and Humanitarian Visa holders. You can nominate to defer your fees to a HELP loan during your enrolment, and once you log into your student account that application can be finalised.

Question 171: Am I able to study at Swinburne Online if I don't live in Victoria?

Answer: You can study at Swinburne Online from any state or territory in Australia, as long as you meet the entry requirements for your online course and have an Internet connection! Swinburne Online now accepts international students into our university degrees. You can find out more about our entry criteria for international students [here](#).

Question 171a: Is it possible for students from other Australian states to pursue their education through Swinburne Online?

Answer: You can study at Swinburne Online from any state or territory in Australia, as long as you meet the entry requirements for your online course and have an Internet connection! Swinburne Online now accepts international students into our university degrees. You can find out more about our entry criteria for international students [here](#).

Question 171b: Are non-residents of Victoria eligible to apply and study at Swinburne Online?

Answer: You can study at Swinburne Online from any state or territory in Australia, as long as you meet the entry requirements for your online course and have an Internet connection! Swinburne Online now accepts international students into our university degrees. You can find out more about our entry criteria for international students [here](#).

Question 171c: Does Swinburne Online accept students who do not live in Victoria for enrollment?

Answer: You can study at Swinburne Online from any state or territory in Australia, as long as you meet the entry requirements for your online course and have an Internet connection! Swinburne Online now accepts international students into our university degrees. You can find out more about our entry criteria for international students [here](#).

Question 171d: Is geographical location a barrier for individuals interested in studying at Swinburne Online?

Answer: You can study at Swinburne Online from any state or territory in Australia, as long as you meet the entry requirements for your online course and have an Internet connection! Swinburne Online now accepts international students into our university degrees. You can find out more about our entry criteria for international students [here](#).
